coaches understand that high pressure requires a high work rate but they don't understand the tactical savvy that can maximize the output of that work. As a result, their teams feature only the madness but not the method behind successful high pressure. High Pressure provides an easy-to-follow blueprint for coaches and players so they know not only what to do but why they are doing it. In this book, Dan Blank clarifies the differences between high and low pressure and explains the big picture of high pressure defending. You will learn the roles of each position, the importance of restraining lines, and how to set up pressure funnels to win the ball in the attacking half. Coach Blank also details the telltale cues that signal a team to step up or back off its pressure and much much more. High pressure defending requires more than just hard work. It requires organization, communication, and an indefatigable team spirit. This book will show you how to create and implement these elements to get a maximum return on your team's effort.
