Today is a turning point in each of our lives. We have spent the past years wandering the halls of this great school and now we are ready to go on.

We have learned, laughed, loved, gotten into trouble, and most of all matured together. But today doesn't just concern reminiscing about the past; it's also about looking forward into our future.

Life is a series of passageways, and we are leaving one and moving on to the next. When we reach that daunting place next year that has been our destination for three years now, we will start over.

We will meet new people, make new friends, and learn new things. We will grow older, more responsible, and independent. Then, the cycle begins again in college, and after that, we are left to traverse the unmapped expanse that is our future.

Hereafter our lives will hold many surprises for us, but I'm sure that we will approach challenges with the same boldness and equanimity with which we tackle problems currently. The unknown of our future may seem frightening now, looming over us like a dark thundercloud, but we might find that it is just a light, spring rain that brings the tidings of a rainbow.

As I look over the many faces I behold today, perceptions of individuals are washed away. I no longer see people as they were; I see them as they will be. So, rather than a young boy, failing all his classes, I see the next Einstein, making revolutionary discoveries. I know that this amphitheatre holds the next decade's great business leaders, doctors, politicians, scientists, and stars, and that all of these graduates will contribute to the fabric of the future in some way.

So when looking at the bright horizon that is my future, I am happy. For although my life will contain sadness and heartbreak, it will also hold joy, love, and success. And I know my classmates' will too. So don't look back, and regret, my friends, look forward, and smile.

A New History of Tudor England Daniel Bender,2020-04-17 People concerned with the history of education and the history of labor rights bring two premises to the table First that the history of education unfolds separately from the history of working class movements and second that an historical period 400 years old is securely confined by the past Surely the time known as Tudor England most readers would say rests in peace as a bygone era Surely an educational system devised by scholars differs from an economic system operated by large landholders and manorial lords This book challenges both premises The Tudor educational system regarded their select class of boys as human capital to be endowed with royalist values germane to the ruling elite The notion of students as co partners in curriculum making was unthinkable Mirroring this educational system was a labor system that regarded commoners as dependent economic actors virtual pawns in capitalist strategy Tudor laborers were granted the right to work but had no say in formulating economic policies that affected the core of their working lives Describing the mirroring relation of two marginalized and voiceless groups this book confronts the regrettable historical conditions of students teachers and workers in a celebrated cultural past Tudor England This marginalization of working class and student labor is not a relic from the Tudor past The political and socioeconomic structures that kept students teachers and workers from negotiating their own destiny are still active in the 21st century This text explores the struggle of students teachers and workers with the Tudor legacies of education and labor After tracing these transhistorical connections each essay calls for activism resistance or reform Democracy as Benjamin Franklin explained in the allegory of two wolves and a lamb deciding what to have for lunch has always called for organized resistance from below Pursuing that hopeful goal this book outlines new forms of education and labor strategies If these are put into practice the needs voices and beliefs of students teachers and workers may be recognized and honored by elite leadership

New Beginning in US-Muslim Relations Eugenio Lilli,2016-06-01 This book carries out a comparative study of the US

response to popular uprisings in the Middle East as an evaluation of President Barack Obama's foreign policy commitments. In 2009 Obama publicly pledged a new beginning in US Muslim relations causing eager expectation of a clear shift in US foreign policy after the election of the 44th president of the United States. However the achievement of such a shift was made particularly difficult by the existence of multiple and sometimes conflicting US interests in the region which influenced the Obama administration's response to the popular uprisings in five Muslim majority countries: Egypt, Bahrain, Yemen, Libya, and Syria. After providing a detailed analysis of the traditional features of both US foreign policy rhetoric and practice, this book turns its focus to the Obama administration's response to the 2011 Arab Awakening to determine whether Obama's foreign policy has indeed brought about a new beginning in US Muslim relations. **Planes, Steak & Water** Autry J. Racist, sexist, fascist, unqualified are just some of the hate speech epithets your friends may have used to describe Donald Trump. But in the privacy of the ballot box you're going to vote for The Donald anyway. Isn't it about time you learned how to defend the choice you know in your heart is the right one? This book arms Trump supporters with anecdotes and information they can use to refute the disinformation spread by Anti-Trump forces on the Left and Right. **Planes, Steak & Water** shatters the elite's lies about the fall of the GOP, Trump's past with women, his attitude toward African Americans, his business dealings, and his supposed racism. Trump supporters will gain confidence and build a solid foundation for persuading friends, families, and foes alike to climb aboard the Trump Train. Musings of a Private Man William A. Horstman, 2025-01-13

The most important thing I learned about Bill was his experience with Carl Sagan's book *Contact*. There is a story in this collection that Bill wrote called *Contact*. It's not a finished piece nor is it a very cohesive piece, but the experience he is trying to capture is one of the most fascinating and extraordinary events I have ever heard of, and it's something I will never forget. As you'll read, when Bill was about 30 years old, he was on a flight home from California and he had the book *Contact* that he began reading on that flight. Early in the book, a few things jump out to Bill. First, the location of the novel begins in a Wisconsin town near a lake, just like how Bill had grown up near Lake Michigan. Then we find out the main character has lost her father while she's in grade school in a sudden way, just as Bill had. But to confirm that this book, which Carl Sagan wrote in 1985, was indeed connected to Bill was the passage that read his exact name. The sentence is: Billy Horstman, who sat next to her, gently reached out and placed his hand over hers. This book was created by Sally Riessen Hunt, Horstman, Brooke Laufer, and Barbara Monier, who together lovingly gathered and organized Bill's writings with the shared conviction that he was a wondrous man.
