Leed Ga Exam Guide Gang Chen,2010-11-26 Pass the LEED Green Associate Exam Get Your Building LEED Certified Fight Global Warming and Save Money LEED Leadership in Energy and Environmental Design is one of the most important trends of development and is revolutionizing the construction industry It

has gained tremendous momentum and has a profound impact on our environment From this book you will learn how to 1 Pass the LEED Green Associate Exam 2 Use LEED exam preparation strategies study methods tips suggestions mnemonics and exam tactics to improve your exam performance 3 Effectively understand digest and retain your LEED knowledge 4 Understand the process of registering and certifying a building for LEED 5 Understand the scope main intent core concepts and strategies as well as identify the regulations recognition and incentives for each major LEED category 6 Identify the strategies for case studies 7 Identify the synergy in case studies 8 Implement the most important LEED related codes and building standards 9 Get points for categories not yet clearly defined by the USGBC There is NO official GBCI book on the LEED Green Associate Exam This pocket guide fills in the blanks and demystifies LEED It uncovers the secrets codes and jargon for LEED as well as the true meaning of going green It provides a solid foundation and fundamental framework for LEED It covers every major aspect of LEED in plain and concise language and introduces it to ordinary people This guide is small and easy to carry around You can read it whenever you have a few extra minutes It is an indispensable book for ordinary people developers brokers contractors administrators architects landscape architects civil structural mechanical electrical and plumbing engineers interns drafters designers and other design professionals Author Bio Gang Chen is a LEED AP BD C and a licensed architect in California He is also the internationally acclaimed author of other fascinating books including Architectural Practice Simplified Planting Design Illustrated and LEED Exam Guides Series which include one guide book for each of the LEED exams ArchiteG com

Guide to the LEED Green Associate Exam Michelle Cottrell, 2010-08-13 Proven strategies to pass the LEED Green Associate exam Here is the ideal study guide for understanding and preparing for the LEED Green Associate exam Written by an expert who is a LEED consultant and partner at Green Education Services a premier LEED exam preparation provider Guide to the LEED Green Associate Exam engages readers by breaking down difficult concepts in sustainable design and engineering in a clearly organized straightforward manner that helps streamline the learning process Serving as a valuable resource for anyone looking for the challenging LEED Green Associate credential Guide to the LEED Green Associate Exam features A thorough overview to understanding the LEED certification process A collection of sample test questions and study tips to reinforce learned material An accessible and stimulating approach that fosters quicker retention A set of strategies for summarizing critical information and details more effectively A wealth of material that includes drawings charts and diagrams to help understand concepts visually A total of 128 sample flashcards that allow you to study on the go Covering basic knowledge of green design construction and operations for professionals who want to demonstrate green building expertise in nontechnical fields of practice this book is the ultimate companion for achieving successful results on the LEED Green Associate exam

LEED v4 BD&C EXAM GUIDE Gang Chen, 2015-06-26 Pass the LEED AP BD they are helpful as reference manuals because of the easy to follow format Definitely a keeper in my bookshelf for future project reference Karen M Scott Great resource for

studying for the LEED Exam I have taken and passed the LEED AP BD C exam and know what it takes As this author says it is not an easy exam and he is right What is critical to passing is having great teaching tools and this book is one of them He touches on every aspect of how to memorize data how questions are formed what to expect on tricky questions the content the test writers are looking for and every little detail you need to know when preparing for this exam I highly recommend this author's books if you are serious about passing any of the LEED exams hopefully on the first try S Jennifer Sakiewicz LEED BD it gave me insight and knowledge on how credits are applied Some questions in your book helped me answer ones on the test Good book I'll go through it once again when I appear for AP Haresh Vibhakar AIIA India AIA LEED Green Associate Architect A good outline The book is an excellent outline to learn the necessary items required to study for the exam It is not a comprehensive study guide in and of itself Practice exam is good indicator of test preparation Paul Levine Solid LEED Study Guide This is the kind of book I wish was available when I did my original LEED AP exam It teaches you how to study which is so important when school is a distant memory The bulk of the book helps you review and memorize with mnemonics the concepts for each credit that you need to know for the exam The questions are good representations of questions on the exam I would recommend to anyone studying for their exam that they First read the chapters in this book on how to study Second read the actual LEED BD C guide to give you the background information on the credits and gain comprehension Underline and review as the author indicates to get the most out of your study time Finally read the rest of this exam guide to help you review and memorize for the exam missfitz missfitz Very Helpful Guide Gang Chen's LEED BD C Exam Guides very helpful in consolidating information from USGBC and GBCI sources as well as providing the information that is necessary for the exam without excess irrelevant information I highly recommend this book for preparation for the LEED BD C exams

leedap **Building Construction** Gang Chen, 2010 Learn the Tips Become One of Those Who Know Building Construction and Architectural Practice and Thrive For architectural practice and building design and construction industry there are two kinds of people those who know and those who don't The tips of building design and construction and project management have been undercover until now Most of the existing books on building construction and architectural practice are too expensive too complicated and too long to be practical and helpful This book simplifies the process to make it easier to understand and uncovers the tips of building design and construction and project management It sets up a solid foundation and fundamental framework for this field It covers every aspect of building construction and architectural practice in plain and concise language and introduces it to all people Through practical case studies it demonstrates the efficient and proper ways to handle various issues and problems in architectural practice and building design and construction industry It is for ordinary people and aspiring young architects as well as seasoned professionals in the construction industry For ordinary people it uncovers the tips of building construction for aspiring architects it works as a construction industry survival guide and a guidebook to shorten the process in mastering architectural practice and climbing up the professional ladder for

seasoned architects it has many checklists to refresh their memory It is an indispensable reference book for ordinary people architectural students interns drafters designers seasoned architects engineers construction administrators superintendents construction managers contractors and developers You will learn 1 How to develop your business and work with your client 2 The entire process of building design and construction including programming entitlement schematic design design development construction documents bidding and construction administration 3 How to coordinate with governing agencies including a county's health department and a city's planning building fire public works departments etc 4 How to coordinate with your consultants including soils civil structural electrical mechanical plumbing engineers landscape architects etc 5 How to create and use your own checklists to do quality control of your construction documents 6 How to use various logs i e RFI log submittal log field visit log etc and lists contact list document control list distribution list etc to organize and simplify your work 7 How to respond to RFI issue CCDs review change orders submittals etc 8 How to make your architectural practice a profitable and successful business About the author Gang Chen holds a master's degree from the School of Architecture University of Southern California USC Los Angeles and a bachelor's degree from the School of Architecture South China University of Technology He has over 20 years of professional experience Many of the projects he was in charge of or participated in have been published extensively in Architecture Architectural Record The Los Angeles Times The Orange County Register etc He has worked on a variety of unusual projects including well known large scale healthcare and hospitality projects with over one billion dollars in construction costs award winning school designs highly acclaimed urban design and streetscape projects multifamily housing high end custom homes and regional and neighborhood shopping centers Gang Chen is a LEED AP and a licensed architect in California He is also the internationally acclaimed author for other fascinating books including Planting Design Illustrated and LEED Exam Guides Series which include one guidebook for each of the LEED exams

Using Free Scribus Software to Create Professional Presentations: Book Covers, Magazine Covers, Graphic Designs, Posters, Newsletters, Renderings, and Alice Chen, Gang Chen, 2010-12-12 About 80% of people have the desire to write a book at some point With the advance of computer and printing technology this dream can become a reality One important factor of publishing a book is to create a professional looking book cover This book uses book cover design as a case study to teach you how to use FREE Scribus software instead of expensive professional software like InDesign Photoshop and QuarkXpress to create professional presentations With fewer words and many full color screenshots we walk you step by step through the entire process No prior experience is needed You will learn how to 1 Download all the FREE software needed 2 Put the cover template in correct formats 3 Set up the sheet correctly using units colors RGB or CMYK layers the imported cover template sizes guides bleed area and safety margin 4 Add the background color for the cover with a shape or image frame 5 Add the cover image and author's photo as well as how to handle a fully bleed image 6 Add the titles and text accurately including information on selecting or changing the text color using the text box centering

the text aligning different text boxes and rotating the text 7 Add the barcode by extracting the barcode from an EPS file and moving all the barcode elements together or by adding the barcode as a JPEG image file 8 Use Scribus software to create professional presentations such as book covers magazine covers graphic designs posters newsletters renderings and more About the authors Alice Chen is an avid Scribus user She has extensive interest in presentation software and resides in California Gang Chen holds a master s degree from the School of Architecture University of Southern California USC Los Angeles and a bachelor s degree from the School of Architecture South China University of Technology He has over 20 years of professional experience Many of the projects he was in charge of or participated in have been published extensively in Architecture Architectural Record The Los Angeles Times The Orange County Register etc He has worked on a variety of unusual projects including well known large scale healthcare and hospitality projects with over one billion dollars in construction costs award winning school designs highly acclaimed urban design and streetscape projects multifamily housing high end custom homes and regional and neighborhood shopping centers Gang Chen is a LEED AP and a licensed architect in California He is also the internationally acclaimed author for other fascinating books including Building Construction Planting Design Illustrated and the LEED Exam Guide series which includes one guidebook for each of the LEED exams
