The Bracero Program Interest Groups And Foreign Policy:

The Bracero Program Richard B. Craig, 1971 **Migrants, Refugees, and Foreign Policy** Rainer Münz, Myron Weiner, 1997 Now faced with growing resistance to admitting foreigners into their countries both governments have once again been using foreign policy instruments in an effort to change the conditions in the refugees countries of origin that forced them to leave The Bracero Program Richard B. Craig, 2015-01-02 Long before Cesar Chavez and Chicano became commonly known the word bracero had established itself in the language of American politics The Mexican Farm Labor Program or bracero program as it came to be known was from its inception in 1942 a highly controversial issue At international national and subnational levels it remained the focal point of an intense interest group struggle This struggle and its group combatants provide the central concern of this study In the early 1940s agribusiness interests had sought to contract Mexican laborers braceros for work on United States farms With the entry of the United States into World War II legislation was passed for contracting braceros on a large scale What was originally a wartime measure soon became an institution During twenty two years 4.2 million braceros were contracted The United States at the insistence of the Mexican government became a partner in the program ensuring that the braceros were provided housing set wages and other benefits The program was however detrimental to one group in the United States the native farmworker Not only was the bracero provided guarantees that the native could not demand but the bracero also got the native's job During the late forties and fifties organized labor gathered its forces in Congress to oppose the program Finally an administration favorable to the native farmworker threw its support behind the native laborer and through the Department of Labor measures were passed that made it less attractive to hire foreign labor In the end the anti bracero forces won out in Congress and defeated extension of the Mexican Farm Labor program At the same time the United States government by setting the working standards for foreign workers brought about an improvement in the working conditions and wages of native farm laborers Besides the conflicts between domestic interests Craig examines the international conflicts and issues involved as well as the international agreements that were the basis of bracero contracting He discusses with perception the program's immediate and long range effects on Mexico His study analyzes and clarifies one of the most controversial domestic and international programs of the twentieth century **Ethnicity, Race, and American Foreign Policy** Alexander DeConde, 1992 This book sheds a disconcerting light on a familiar history contending that ethnoracial considerations and especially British American ethnocentrism have often taken priority over morality ideology and other factors in determining U.S. foreign policy **The Invisible Workers of the U.S.-Mexico Bracero Program** Ronald L. Mize, 2016-08-30 As the first and largest guestworker program the U.S. Mexico Bracero Program 1942-1964 codified the unequal relations of labor migration between the two nations This book interrogates the articulations of race and class in the making of the Bracero Program by introducing new syntheses of sociological theories and methods to center the experiences and recollections of former Braceros and their

families U.S. Immigration Policy and the National Interest United States. Select Commission on Immigration and Refugee Policy, 1981 **Studies in Law, Politics, and Society** Austin Sarat, 2020-09-04 This special issue of Studies in Law Politics and Society examines how law understands the past Topics covered include the use of legal language to dehumanize slaves in the eighteenth century the use of history by lawyers and judges to justify existing law or make changes to the law during the nineteenth and twentieth centuries **Mexicanos, Third Edition** Manuel G. Managed Migrations Cristina Salinas, 2018-11-14 2020 National Association for Chicana and Chicano Studies NACCS Book Award Winner Honorable Mention Ramirez Family Award for Most Significant Scholarly Book Texas Institute of Letters 2019 Managed Migrations examines the concurrent development of a border agricultural industry and changing methods of border enforcement in the Rio Grande Valley of Texas during the past century Needed at one moment scorned at others Mexican agricultural workers have moved back and forth across the US Mexico border for the past century In South Texas Anglo growers dreams of creating a modern agricultural empire depended on continuous access to Mexican workers While this access was officially regulated by immigration laws and policy promulgated in Washington DC in practice the migration of Mexican labor involved daily on the ground negotiations among growers workers and the US Border Patrol In a very real sense these groups set the parameters of border enforcement policy Managed Migrations examines the relationship between immigration laws and policy and the agricultural labor relations of growers and workers in South Texas and El Paso during the 1940s and 1950s Cristina Salinas argues that immigration law was mainly enacted not in embassies or the halls of Congress but on the ground as a result of daily decisions by the Border Patrol that growers and workers negotiated and contested She describes how the INS devised techniques to facilitate high volume yearly deportations and shows how the agency used these enforcement practices to manage the seasonal agricultural labor migration across the border Her pioneering research reveals the great extent to which immigration policy was made at the local level as well as the agency of Mexican farmworkers who managed to maintain their mobility and kinship networks despite the constraints of grower paternalism and enforcement actions by the Border Patrol

Deportation Nation Dan Kanstroom, 2010-03-15 The danger of deportation hangs over the head of virtually every noncitizen in the United States In the complexities and inconsistencies of immigration law one can find a reason to deport almost any noncitizen at almost any time In recent years the system has been used with unprecedented vigor against millions of deportees We are a nation of immigrants but which ones do we want and what do we do with those that we don t These questions have troubled American law and politics since colonial times Deportation Nation is a chilling

history of communal self idealization and self protection The post Revolutionary Alien and Sedition Laws the Fugitive Slave laws the Indian removals the Chinese Exclusion Act the Palmer Raids the internment of the Japanese Americans all sought to remove those whose origins suggested they could never become true Americans And for more than a century millions of Mexicans have conveniently served as cheap labor crossing a border that was not official until the early twentieth century and being sent back across it when they became a burden By illuminating the shadowy corners of American history Daniel Kanstroom shows that deportation has long been a legal tool to control immigrants lives and is used with increasing crudeness in a globalized but xenophobic world
