The Bureau Of Infrastructure Transport And Regional Economics Report

Geoffrey Till, Patrick Bratton

The Bureau Of Infrastructure Transport And Regional Economics Report:

Australia's Unintended Cities Richard Tomlinson, 2012-11-23 Australia's Unintended Cities identifies and researches housing and housing related urban outcomes that are unintended consequences of other policies the structure of incentives and disincentives for the housing market and governance arrangements for metropolitan areas and planning and service delivery It is argued that unintended consequences have a greater impact on the housing market and Australia's cities and their future than policies directly concerned with housing urban policy and metropolitan strategic planning The book will inform policy makers including government officials consultants and politicians It will also be used by academics and students in various areas of urban policy such as housing and urban planning as well as environment public policy and economics

Utilities Reform in Twenty-First Century Australia Malcolm Abbott, Bruce Cohen, 2021 The book traces the development and consequences of the economic reform measures undertaken in the utilities sector in Australia communications energy water wastewater services and transport in the last years of the 20th century and early decades of the 21st century

ITF Research Reports Liberalisation of Air Transport International Transport Forum, 2019-05-03 Aviation is one of the most regulated industries in the world Much of this regulation is safety related to mitigate the inherent risks tied with air transport But aviation is also subject to economic regulation that influences which airline flies which route at which frequency capacity and price It even stipulates the nationality of its owners and decision makers Aviation has freed itself from some restrictions over the past three decades with many benefits to society Yet liberalisation has also raised issues with regard to maintaining fair competition high labour standards and mitigating aviation's growing environmental impact

OECD,2008-06-10 Poland has been catching up with the rest of the OECD more quickly in the past two years but the short term outlook is clouded by strong excess demand pressures and rising inflation This 2008 edition of OECD s periodic survey of the Polish economy **City Limits** Jane-Frances Kelly,Paul Donegan,2015-03-02 Our bush heritage helped to define our

identity but today Australia is a nation of cities A higher proportion of Australians live in cities than almost any other country and most of our national wealth is generated in them For most of the twentieth century our cities gave us some of the highest living standards in the world But they are no longer keeping up with changes in how we live and how our economy works The distance between where people live and where they work is growing fast The housing market isn t working locking many Australians out of where and how they d like to live The daily commute is getting longer putting pressure on social and family life and driving up living costs Instead of bringing us together Australia s cities are dividing Australians between young and old rich and poor the outer suburbs and the inner city Neglecting our cities has real consequences for our lives now and for our future prosperity Using stories and case studies to show how individuals families and businesses experience life in cities today this book provides an account of why Australia s cities are broken and how to fix them **Delivering Value with**

BIM Adriana Sanchez,Keith Hampson,Simon Vaux,2016-03-31 Building Information Modelling BIM is a global phenomenon which is gaining significant momentum across the world Currently there is little information on how to realise and monitor benefits from implementing BIM across the life cycle of a built environment asset This book provides a practical and strategic framework to realise value from implementing BIM by adapting Benefit Realisation Management theory It presents an approach for practitioners aiming to implement BIM across the life cycle of built environment assets including both buildings and infrastructure Additionally the book features wide ranging information about BIM the challenges of monitoring progress towards benefit goals and the greater context of implementation a set of dictionaries that illustrate how benefits can be

achieved what the benefit flows are and the enabling tools and processes that contribute to achieving and maximising them a suite of measures that can serve to monitor progress with examples of how they have been used to measure benefits from BIM real world examples from across the world and life cycle phases that show how these benefits can be achieved and information on international maturity and competency measures to complement the value realisation framework Including a blend of academic and industry input this book has been developed in close collaborative consultation with industry government and international research organisations and could be used for industry courses on BIM benefits and implementation for asset management or by universities that teach BIM related courses

Are We Safe Enough? Mark G. Stewart, John Mueller, 2017-09-08 Are We Safe Enough Measuring and Assessing Aviation Security explains how standard risk analytic and cost benefit analysis can be applied to aviation security in systematic and easy to understand steps The book evaluates and puts into sensible context the risks associated with air travel the risk appetite of airlines and regulators and the notion of acceptable risk It does so by describing the effectiveness risk reduction and cost of each layer of aviation security from policing and intelligence to checkpoint passenger screening to arming pilots on the flight deck Quantifies the risks costs and benefits of various aviation security methods including policing intelligence PreCheck checkpoint passenger screening behavioral detection air marshals and armed pilots Focuses on security measures that reduce costs without reducing security including PreCheck Federal Flight Deck Officer program and Installed Physical Secondary Barriers Features risk reduction insights with global applications that are fully transparent and fully explored through sensitivity analysis

Sea Power and the Asia-Pacific Geoffrey Till, Patrick Bratton, 2012-02-07 With particular focus on the Asia Pacific region this book examines the rise and fall of sea powers In the Asia Pacific region there has been significant expansion of sea based economies together with burgeoning naval power Many claim that these processes will transform the world s future economic and security relationships The book addresses the question of to what extent the notion of Asia rising is reflected by and dependent on its developing sea power A central theme is the Chinese challenge to long term Western maritime ascendancy and what might be the consequences of this In order to situate current and future developments this book includes chapters which analyse what sea power means and has meant as well as its role both historic and contemporary in the rise and fall of great powers This book will be of much interest to students of naval power Asian politics strategic studies war and conflict studies IR and security studies
