equity and inclusion at higher education institutions around the world *Pedagogies of Post-Truth* Ahmet Atay, David H. Kahl Jr., 2021-12-06 *Pedagogies of Post Truth* explores the national and international political developments in what has been called a post truth society specifically in which conservative groups target media outlets claiming fabrication of news and that the veracity of evidence based reporting should be questioned Truth has been reduced to the validation of opinions instead of the presentation of scientific facts This collection responds to these issues by initiating a scholarly dialogue about teaching in the era of post truth in which research based findings that do not align with political viewpoints are judged criticized and often described as fake Contributors evaluate the pedagogical challenges of post truth discourse and how post truth messages negatively affect instructors and students By highlighting ways instructors and students can resist the hegemony of post truth this book creates a dialogue among scholars illustrates the challenges and offers pedagogical techniques to discuss post truth the role of the educator the role of media and the role of other story makers of our society

Building Information Modeling in Pedagogy and Practice Anne K. Anderson, Kevin R. Miller, David E. Gunderson, 2025-08-11 The adoption of building information modeling BIM in both pedagogy and practice has experienced significant growth in the past decade As the use of BIM is being quantitatively and qualitatively shown to improve project outcomes many educators and practitioners are still struggling with how to incorporate BIM into curriculum training and current and future projects This book is a compilation of the best academic and research articles on the topic of BIM provides a resource for both educators and practitioners for understanding issues regarding BIM covers BIM topics such as BIM Execution Planning Collaboration Visualization Site Utilization Planning Safety Estimating Sequencing Coordination Clash Detections Integrated Project Delivery Legal considerations for BIM Industry Uses of BIM Sustainability Facilities Management Interoperability Modular Construction and Virtual Reality and includes a new introduction and conclusion Building Information Modeling in Pedagogy and Practice will be an invaluable resource for engaged academics and teaching practitioners interested in playing a key role in the future development of the building profession as well as undergraduate and postgraduate students wishing to understand the importance of BIM Most of the chapters in this book were originally published in the International Journal of Construction Education and Research Refuge and Resilience Laura Simich, Lisa Andermann, 2014-06-05 Taking an interdisciplinary approach and focusing on the social and psychological resources that promote resilience among forced migrants this book presents theory and evidence about what keeps refugees healthy during resettlement The book draws on contributions from cultural psychiatry anthropology ethics nursing psychiatric epidemiology sociology and social work Concern about immigrant mental health and social integration in resettlement countries has given rise to public debates that challenge scientists and policy makers to assemble facts and solutions to perceived problems Since the 1980s refugee mental health research has been productive but arguably overly focused on mental disorders and problems rather than solutions Social science perspectives are not well integrated with medical science and treatment which

is at odds with social reality and underlies inadequacy and fragmentation in policy and service delivery Research and practice that contribute to positive refugee mental health from Canada and the U S show that refugee mental health promotion must take into account social and policy contexts of immigration and health care in addition to medical issues Despite traumatic experiences most refugees are not mentally ill in a clinical sense and those who do need medical attention often do not receive appropriate care As recent studies show social and cultural determinants of health may play a larger role in refugee health and adaptation outcomes than do biological factors or pre migration experiences This book s goal therefore is to broaden the refugee mental health field with social and cultural perspectives on resilience and mental health
