Using Data to Improve Student Learning Graham S. Maxwell, 2021-04-21 This book offers a coherent research based overview and analysis of theories and practices in using data to improve student learning It clarifies what use of data means and differentiates the different levels of decision making in education relating to the system district school classroom or individual student The relationship between data and decision making is considered and various movements in the use of data to improve student learning are analysed especially from the perspective of their assumptions and effects This leads to a focus on effective educational decision making as a social process requiring collaboration among all relevant participants It also requires a clear understanding of educational aims and these are seen to transcend what can be assessed by standardised tests The consequences of this analysis for decision processes are explored and conclusions are drawn about what principles might best guide educational practice as well as what ambiguities remain Throughout the focus is on what existing research says about each of the issues explored

How Teachers Can Turn Data into Action Daniel R. Venables, 2014-02-03 From state and Common Core tests to formative and summative assessments in the classroom teachers are awash in data

Reviewing the data can be time consuming and the work of translating data into real change can seem overwhelming. Tapping more than 30 years experience as an award winning teacher and a trainer of PLC coaches Daniel R Venables author of *The Practice of Authentic PLCs A Guide to Effective Teacher Teams* soothes the trepidation of even the biggest dataphobes in this essential resource. Field tested and fine tuned with professional learning communities around the United States the Data Action Model is a teacher friendly systematic process for reviewing and responding to data in cycles of two to nine weeks. This powerful tool enables you and your teacher team to Identify critical gaps in learning and corresponding instructional gaps. Collaborate on solutions and develop a goal driven action plan and Evaluate the plan s effectiveness after implementation and determine the next course of action. With easy to use templates and protocols to focus and deepen data conversations this indispensable guide delineates exactly what should be accomplished in each team meeting to translate data into practice.
