Solutions to the Crisis Facing the U.S. Postal Service, United States Congress, Senate, Committee on Homeland Security and Governmental Affairs, 2013. [The Federal Management Playbook](#)

Ira Goldstein (Civil servant), 2016. Stories of government management failures often make the headlines, but quietly much gets done as well. What makes the difference? Ira Goldstein offers wisdom about how to lead and succeed in the federal realm, even during periods when the political climate is intensely negative. Based on his decades of experience as a senior executive at two major government consulting firms and as a member of the U.S. federal government's Senior Executive Service, *The Federal Management Playbook* coaches the importance of always keeping four key concepts in mind when planning for success: goals, stakeholders, resources, and time frames. Its chapters address how to effectively motivate government employees, pick the right technologies, communicate and negotiate with powerful stakeholders, manage risks, get value from contractors, foster innovation, and more. Goldstein makes lessons easy to apply by breaking each chapter's plans into three strategic phases: create an offensive strategy, execute your plan effectively, and play a smart defense. Additional tips describe how career civil servants and political appointees can get the most from one another, advise consultants on providing value to government, and help everyone better manage ever-present oversight. *The Federal Management Playbook* is a must-read for anyone working in the government realm and for students who aspire to public service.
