Vaal University Of Technology Application Form For 2016:

Additive Manufacturing: Materials, Processes, Quantifications and Applications Jing Zhang, Yeon-Gil Jung, 2018-05-17

Additive Manufacturing Materials Processes Quantifications and Applications is designed to explain the engineering aspects and physical principles of available AM technologies and their most relevant applications. It begins with a review of the recent developments in this technology and then progresses to a discussion of the criteria needed to successfully select an AM technology for the embodiment of a particular design, discussing material compatibility, interfaces, issues, and strength requirements. The book concludes with a review of the applications in various industries, including bio energy, aerospace, and electronics. This book will be a must read for those interested in a practical, comprehensive introduction to additive manufacturing, an area with tremendous potential for producing high value, complex, individually customized parts. As 3D printing technology advances, both in hardware and software, together with reduced materials cost and complexity of creating 3D printed items, these applications are quickly expanding into the mass market. Includes a discussion of the historical development and physical principles of current AM technologies. Exposes readers to the engineering principles for evaluating and quantifying AM technologies. Explores the uses of Additive Manufacturing in various industries, most notably aerospace, medical, energy, and electronics.

Redefining Education and Development Kaitano Dube, 2024-10-18

The book aligns with the United Nations Sustainable Development Goals (SDGs), particularly Goal 4, which focuses on quality education. It explores the evolving role of education as a critical driver for achieving all 17 SDGs by providing a platform for discussing innovative educational models and theories that foster sustainable development. The book takes an interdisciplinary approach, merging educational theory, developmental practice, and human psychology to address complex global challenges hindering sustainable development. The book includes case studies and empirical research, such as exploring student entrepreneurship in the agricultural sector and the factors bridging the gap between entrepreneurial intention and venture creation. These examples provide readers with practical applications of theoretical concepts and demonstrate the real-world impact of educational innovations, which is at the core of education delivery for all and how education touches on other areas of the SDGs. The book offers valuable insights for policymakers, educators, and development practitioners by presenting research and theory-based analyses. It suggests ways to improve the academic environment to foster entrepreneurship and innovation, which are key to economic development and job creation, especially in regions with high youth unemployment rates. The content suggests educational reforms that are responsive to the changing societal and economic landscapes. The book's blend of theory and practice targets a broad audience, including academic scholars, students, development agencies, non-governmental organizations, and policymakers. It seeks to engage these diverse readers in a conversation about the future of education and its role in achieving sustainable development. In summary, the book seeks to provide a comprehensive exploration of the nexus between education, development, and human needs in the context of the SDGs, offering innovative

perspectives and practical solutions to equip readers to contribute to sustainable global development **Speaking Subjects in Multilingualism Research** Judith Purkarthofer, Mi-Cha Flubacher, 2022-07-22 This book discusses salient moments of multilingual encounters and brings together contributions focused on the interplay between language use by individuals and societies and language related inequalities or opportunities for speakers The chapters demonstrate how biographical and speaker centred approaches can contribute to an understanding of linguistic diversity how researchers can empirically account for lived experiences of languages and how such accounts are embedded in a larger discussion on social inequality Together the chapters make a powerful case for the importance of speaker centred methodologies in multilingual and multilingualism research The book is a rich source of theoretical and methodological reflections and will thus be a valuable resource for both experienced researchers and students beginning to explore biographical research methods **Deanship in the Global South** Oliver J.J. Seale, 2021-02-08 The university today is a postmodern neo liberal competitive boundary less knowledge conglomerate a far cry from its historical traditional classical and collegial roots There is a body of literature on deanship that points to its evolving nature in the contemporary academe characterised by complexity and change Balancing academic demands simultaneously with the requirements for effective performance leadership and management lies at the heart of this very challenging bridging role nowadays Deans are generally former academics emerging from a traditional collegial space and often catapulted into the relatively unknown domain of executive management with its related problems Deans nowadays are required to be more than collegial intellectual leaders They are also meant to be fiscal and human resource experts fundraisers politicians and diplomats Deanship in the Global South Bridging Troubled Waters is about the deans lived reality as they try to balance the demands of both the academe from which they emerge and the administration to whom they now need to account Their lack of preparation and inadequate support points to the need for a more strategic integrated approach to leadership development within their critical bridging roles between the academe and administration **Mathematical Biology And Biological Physics** Rubem P Mondaini, 2017-07-14 This is a book on interdisciplinary topics of the Mathematical and Biological Sciences The treatment is both pedagogical and advanced in order to motivate research students as well as to fulfill the requirements of professional practitioners There are comprehensive reviews written by senior experts on the important problems of growth and agglomeration in biology on the algebraic modelling of the genetic code and on multi step biochemical pathways There are new results on the state of the art research in the pattern recognition of probability distribution of amino acids on somitogenesis through reaction diffusion models on the mathematical modelling of infectious diseases on the biophysical modelling of physiological disorders on the sensitive analysis of parameters of malaria models on the stability and hopf bifurcation of ecological and epidemiological models on the viral infection of bee colonies and on the structure and motion of proteins All these contributions are also strongly recommended to professionals from other scientific areas aiming to work on these interdisciplinary fields **The Social**

Impacts of Mine Closure in South Africa Lochner Marais,2022-09-05 This book investigates the relationship between mining mine closure and housing policy in post apartheid South Africa using concepts from new institutional economics and evolutionary governance theory Mine closures present a major challenge to the mining industry and governments with this being particularly noticeable in the Global South This book argues that the dependencies created by the mining industry and mine housing policies while a mine is operational cause serious societal problems when it closes To demonstrate this the book applies the concepts of place attachment asset based development and social disruption Conceptually the book challenges the view that place attachment and asset based development are the most appropriate and often the only policy responses in mining areas In South Africa the mining industry and the government have created comprehensive housing programmes linked to homeownership to promote place attachment stability and wealth among mine workers These programmes do not consider the disruption that mine closure might bring The book challenges the blind application during boom periods of policies which create long term dependencies that are difficult to manage when a mine closes This book will be of interest to students and scholars researching the social impacts of mining and the extractive industries social geography and sustainable development as well as policymakers and practitioners working with mine closure or social impact assessments

Accessibility of Digital Higher Education in the Global South Mashau, Pfano, Farisani, Tshililo Ruddy,2023-12-01 Accessibility of Digital Higher Education in the Global South authored by Pfano Mashau and Tshililo Farisani from the University of KwaZulu Natal South Africa is an academic book that examines the impact of the COVID 19 pandemic on higher education in Africa The book aims to provide a comprehensive analysis of the sustainability of the new normal approaches in African universities and institutions of learning as well as government responses to teaching and learning processes during and post pandemic The sudden outbreak of COVID 19 triggered demands for informal comfortable and self designed spaces that go beyond conventional formal classrooms where students can take initiative and demonstrate independence in learning However access to digitalized teaching methods remains problematic due to the digital divide among learners and the rural urban dichotomy The book invites researchers academics and scholars in the Global South to contribute to the narrative to document successes in and improve the higher education sector post pandemic The book covers a range of themes including the sustainability of digitalized teaching approaches integrative and interactive teaching and learning theories and practices government responses to teaching and learning processes comparative analysis of conventional and digitalized teaching and learning approaches and equality diversity and participation in digitalized teaching and learning platforms among others
