**Practice** David M. Yousem, Norman J. Beauchamp, 2007-11-19 To succeed in radiology you not only need to be able to interpret diagnostic images accurately and efficiently you also need to make wise decisions about managing your practice at every level Whether you work in a private group hospital and or university setting this practical resource delivers the real world advice you need to effectively navigate day to day financial decisions equipment and computer systems choices and interactions with your partners and staff Equips you to make the best possible decisions on assessing your equipment needs dealing with manufacturers purchasing versus leasing and anticipating maintenance costs and depreciation Helps you to identify your most appropriate options for picture archiving systems and radiology information systems security issues high speed lines storage issues workstation assessments and paperless filmless flow Offers advice on dealing with departments clinicians who wish to perform radiological procedures and provides strategies for win win compromises drawing the line inpatient versus outpatient considerations cost and revenue sharing and more      Environmental policy tools : a user's guide., 1995 The search for smarter ways to prevent or control pollution has generated heated debate on almost every conceivable topic related to setting goals improving institutional arrangements and choosing the most effective means for achieving those goals This last issue choosing the means or policy instruments to meet environmental goals can be a surprisingly complex task for decision makers given the need to balance other competing concerns The environmental policy toolbox contains many and varied instruments but lacks a clear set of instructions for their use This OTA report fills that need The guide is organized into three major sections 1 The Environmental Policy Toolbox a discussion of 12 major policy tools their frequency

of use and key strengths and weaknesses 2 The Criteria for Comparing Tools our evaluation of how effective these instruments are in achieving the values and interests or criteria decision makers are likely to weigh 3 Choosing Tools a series of questions for matching a tool or tools to a specific problem Choosing tools that satisfy several much less all of these criteria for a specific problem is the challenge Unfortunately no perfect policy tool exists to meet everyone s expectations for every problem RDT&E/acquisition Management Guide United States.
