

CHARACTER ANALYSIS ESSAY

Character in literature is an extended verbal representation of a human being, specifically the inner self that determines thought, speech, and behaviour. Through dialogue, action, and commentary, literature captures some of the interactions of character and circumstance. Literature makes these interactions interesting by portraying characters who are worth caring about, rooting for, and even loving, although there are also characters at whom you may laugh or whom you may dislike or even hate.

In literature you may expect completeness of context. That is, you may think of each action or speech, no matter how small or seemingly unusual, as an accumulating part of a total portrait. Whereas in life things may "just happen", in literature the actions, interactions, speeches, and observations are all arranged to give you the details you need for conclusions about character. From these happenings in their contexts you make inferences about the characters involved. In effect, you determine the "character" of the various characters.

In writing about a literary character, you should try to describe the character's major trait or traits. As in life, characters may be lazy or ambitious, anxious or serene aggressive or fearful, assertive or bashful, confident or self-doubting, adventurous or timid, noisy or quiet, visionary or practical, reasonable or hot-headed, careful or careless, fair or partial, straightforward or underhanded, "winners" or "losers", and so on. With this sort of list, to which you may add at will, you can analyze and write about character.

Reflections on the Future of Capitalism Ramesh Chandra,2024-06-04 This book explores the ideas of nine renowned economists to present the evolution of economic thought on the development and trajectory of capitalism as a system The author shows how this diverse group of thinkers are linked by their thinking on the future role of capitalism in society and fleshes out the influences informing each economist s work With chapters dedicated to Karl Marx Joseph Schumpeter Thorstein Veblen Henry George Gunnar Myrdal Alfred Marshall Allyn Young J M Keynes and Amartya Sen the book aims to analyse contrasting views on the future of capitalism in historical perspective and make a critical assessment of their insights in contemporary contexts While considering the views of some thinkers such as Marx Schumpeter and Veblen who critiqued capitalism the book does not view capitalism beyond redemption nor is meant to be a critique of capitalism in its conclusions Rather it argues that thinkers like Marshall Myrdal Young and Keynes were more right in their optimism about the future prospects of capitalism than many others It argues that capitalism can be reformed through the democratic process in a more humane direction This can happen if democracy works for all and if discriminating privileges and crony capitalism are eschewed This book is valuable reading for scholars and students of economic history and

the history of economic thought **The Inward Eye** Laurie W. Raymond, Susan Rosbrow-Reich, 2013-06-17 A central although unappreciated dimension of psychoanalysis is the complex oral tradition through which analysts verbally reconstruct their lives and careers The Inward Eye captures a significant portion of this tradition In a series of interviews initially conceived as an aspect of their psychoanalytic education Laurie Raymond and Susan Rosbrow Reich skillfully elicit the fascinating personal stories of 16 senior analysts The interviewees who represent diverse theoretical traditions and cultural backgrounds share a willingness to reflect candidly on their preanalytic years their formative influences their entry into psychoanalysis and their relationships with mentors and colleagues Out of this skillfully guided journey into the personal past emerges a vital human context for understanding the theoretical preferences and clinical styles of analysts as diverse as Arthur Valenstein Joseph and Anne Marie Sandler Jacob Arlow Andre Green Leo Stone Leo and Anita Rangell Edward Weinshel Merton M Gill Albert Solnit W Clifford M Scott James McLaughlin Rebecca Solomon Joyce McDougall M Robert Gardner and Janine Chasseguet Smirgel Raymond and Rosbrow Reich succeed in capturing the essential humanity of all their interview subjects in showing how their subjects lives outside the consulting room have shaped and in turn been shaped by the analytic identities they assume behind the couch An engrossing read wonderfully revelatory of its creative subjects The Inward Eye is also an invaluable contribution to psychoanalytic history **Norton's Literary Advertiser** ,1853

Characterizing the Robustness of Science Léna Soler, Emiliano Trizio, Thomas Nickles, William Wimsatt, 2012-03-22 Mature sciences have been long been characterized in terms of the successfulness reliability or trustworthiness of their theoretical experimental or technical accomplishments Today many philosophers of science talk of robustness often without specifying in a precise way the meaning of this term This lack of clarity is the cause of frequent misunderstandings since all these notions and that of robustness in particular are connected to fundamental issues which concern nothing less than the very nature of science and its specificity with respect to other human practices the nature of rationality and of scientific progress and science s claim to be a truth conducive activity This book offers for the first time a comprehensive analysis of the problem of robustness and in general that of the reliability of science based on several detailed case studies and on philosophical essays inspired by the so called practical turn in philosophy of science *Engineering* ,1877
