

ElmScan 5 Bluetooth™ Quick Start

1. Install ScanTool.net software

Insert the software CD in your CD-ROM drive. The scan tool selection menu will automatically appear:

If the menu does not appear, click Start+Run, type D:\setup.exe (where D is the drive letter of your CD-ROM drive), and click OK.

Click on the icon labeled 'ElmScan 5', to display the software selection menu:

Click on 'ScanTool.net (Windows)', and follow the prompts to install the software.

2. Locate the diagnostic connector

The 16-pin D-shaped diagnostic link connector (DLC) should be located in the passenger or driver's compartment in the area bounded by the driver's end of the instrument panel to 300 mm (~1 ft) beyond the vehicle centerline, attached to the instrument panel and easy to access from the driver's seat. The preferred location is between the steering column and the vehicle centerline.

3. Connect scan tool to the DLC

Follow connection diagram (directly below) to connect ElmScan 5 Bluetooth to the diagnostic connector using the black OBD-II cable (steps A & B). Turn the vehicle's ignition to the Key On Engine Off position.

Watch the lights on the scan tool as you are performing step B. Both sets of Tx/Rx lights will be lit up in sequence from left to right. The 'POWER' light should also continuously alternate between red and yellow.

4. Install USB to Bluetooth adapter

Follow the USB to Bluetooth adapter's installation guide (located on the reverse side) to connect and install the adapter.

5. Launch ScanTool.net software

To launch the software, click on Start → Programs → OBD-II Software → ScanTool.net → ScanTool.net v1.14 for Windows. Go to Options, and select the appropriate COM port number.

Technical support

Should you run into problems, technical support is just a click away:

- **Knowledgebase** - contains answers to the most commonly asked questions, general information about OBD-II, and troubleshooting information.
- **Forum** - allows you to share information and get support from other ElmScan 5 users.

These resources can be accessed from our website: www.ScanTool.net
