Consultancy for the

Production of Supplementary Educational Materials

Summary

UNESCO seeks the services of a team of consultants to produce educational materials for use in schools on menstrual hygiene management (MHM), early, child and forced marriage (ECFM) and school-related gender-based violence (SRGBV). The team of consultants will work with UNESCO and the Ministry of Education, Science and Technology (MoEST) to develop, design and layout age- and culturally appropriate materials for primary and secondary schools.

Background

In March 2018, UNESCO Regional Office of Southern Africa launched a project titled 'Our Rights, Our lives, Our Future' which seeks to improve sexual and reproductive health (SRH), gender and education outcomes for adolescents and young people in the Sub-Saharan Africa region through sustained reductions in new HIV/STI infections, early and unintended pregnancy and gender-based violence. The project supports delivery of good quality comprehensive sexuality education (CSE) that empowers adolescents and young people, and builds agency while developing the skills, knowledge, attitudes and competencies required for preventing HIV, reducing early and unintended pregnancies and eliminating gender based violence. The project has four main objectives designed to contribute to the effective strengthening of sexuality education programmes:

- a) Secure and sustain strong political commitment and support for adolescents and young people's access to comprehensive sexuality education and sexual and reproductive health services across Sub-Saharan Africa.
- b) Support the delivery of accurate, rights-based and good quality comprehensive sexuality education programmes that provide knowledge, values and skills essential for safer behaviours, reduced adolescent pregnancy, and gender equality
- c) Ensure that schools and community environments are safer, healthier and inclusive for all young people
- d) Strengthen the evidence base on CSE and safer school environments

The programme follows a 3-tier system with programme acceleration countries at the top followed by focus countries and then networking countries. This 3-tier system will allow countries to learn from each other as they work towards national coverage. Institutionalizing the CSE programs will ensure governments provide domestic funding and contribute to fully scaled-up CSE interventions. Malawi became a programme acceleration country in 2019.

UNESCO is currently supporting Malawi's MoEST to implement the Our Rights, Our Lives, Our Future (O3) Programme with support from the Swedish International Development Cooperation Agency (Sida) and Norway. The programme is aimed at reaching 3.7 million learners in primary and secondary schools.
