Technically Together Taylor Dotson, 2024-02-06 Why we should not accept networked individualism as the inevitable future of community If social interaction by social media has become the modern front porch as one sociologist argues offering richer and more various contexts for community and personal connection why do we often feel lonelier after checking Facebook For one thing as Taylor Dotson writes in *Technically Together* Try getting a

Facebook status update to help move a couch or stay for dinner Dotson argues that the experts who assure us that networked individualism will only bring us closer together seem to be urging citizens to adapt their social expectations to the current limits of technology and discouraging them from considering how technologies could be refashioned to enable other ways of relating and belonging Dotson characterizes different instantiations of community as thick or thin depending on the facets and manifestations of togetherness that they encompass Individuating social networks are a form of community he explains but relatively thin in regard to several dimensions of communality Dotson points out that current technological practices are not foreordained but supported by policies economic arrangements and entrenched patterns of thought He examines a range of systems organizations and infrastructures from suburban sprawl and smartphones to energy grids and cry it out sleep training for infants and considers whether they contribute to the atomization of social life or to togetherness and community vibrancy Dotson argues that technology could support multifaceted communities if citizens stopped accepting the technological status quo and instead demanded more from their ever present devices

The Stuff of Family Life Michelle Janning, 2017-05-05 Does putting your smartphone on the dinner table impact your relationships How does where you place your TV in your home affect your family The Stuff of Family Life takes readers inside the changing world of families through a unique examination of their stuff From digital family photo albums to the growing popularity of man caves author Michelle Janning looks at not only what large demographic studies say about family dynamics but also what our lives and the stuff in them say about how we relate to each other The book takes readers through various phases of family life including dating marriage parenting divorce and aging while paying attention to how our choices about our spaces and objects impact our lives Janning has joked I m not a social scientist who uses large national datasets to illustrate family life I m the social scientist who asks people to examine what s in their underwear drawers to tell stories about their family life From underwear drawers to calendars The Stuff of Family Life offers an illuminating and entertaining look at the complexities of American families today

Photovoice Research in Education and Beyond Amanda O. Latz, 2017-04-07 Photovoice is a form of participatory action research which has been gaining use and momentum since its inception in the mid 1990s Within the enactment of this methodology research participants are invited to document aspects of their lives through photography and then provide written or oral accounts of the images they create Designed to situate participants as experts on their lives and their experiences photovoice is a powerful and visceral approach to policy change efforts In this book the photovoice methodology is conceptualized as being comprised of eight steps identification invitation education documentation narration ideation presentation and confirmation Each of the steps is explained and expanded upon

and insights are drawn from the extant photovoice literature and the author's personal experience. In addition, attention is given to the history of photography and inquiry, theoretical underpinnings and aims of the methodology, ethical considerations, methods and procedures, approaches to data analysis and photovoice exhibitions. Finally, the author has attended to some aspects of photovoice that have historically been left unattended, such as building a conceptual framework for a photovoice study, viewing the photovoice exhibition as a site of inquiry and thinking through the ways in which ever-evolving photography technologies can and should impact decision making throughout the photovoice process. While many texts exist that touch on and/or address photovoice, this is the first book solely dedicated to the entirety of the photovoice methodology, from theory to exhibition. Built as a practical guide, readers will find a wealth of information, resources and advice within this book. Educators, students and academic researchers will find this an accessible and compassionate text, one that will be a trusted companion while on the photovoice project journey.

Infância e Seus Lugares Hélio Alexandre Mariano, 2018-11-08

A cada dia os/as pesquisadores/as descobrem novas fontes para estudar a infância tais como processos, crimes, jornais, discursos proferidos por parlamentares na Câmara e no Senado, livros e teses de doutoramento de médicos e advogados, livros produzidos para crianças, projetos governamentais, relatos de Ministros e de Chefes de Polícia e várias outras fontes possíveis de encontrar a infância representada por adultos. Muitas vezes nos debruçamos sobre essas fontes e

escrevemos capítulos de história da infância esquecendo mais uma vez da personagem central a própria criança e suas produções suas histórias seus modos de vida e contamos uma versão a partir do olhar do adulto. Buscamos na presente obra elucidar uma outra história a contada a partir dos múltiplos olhares sobre a infância não a do olhar do adulto para infância ou da regulamentação dos modos de viver nas cidades e sim como a infância foi e ainda vivenciada nos mais diversos espaços suas lutas por sobrevivência e suas expectativas de vida não deixando de lado uma análise minuciosa das fontes por mim sem esquecer mais uma vez do protagonista principal a criança infância.

Espaços habitados e práticas de morar Mary Jane Paris Spink, 2022-12-19 Além das aprendizagens sobre o fazer pesquisa no cotidiano Espaços habitados e práticas de morar leva-nos também a refletir sobre as vivências no território e os sentidos de moradia digna Ao longo dos capítulos fica evidente que não há uniformidade no

território. Aprendemos que quando olhamos bem de perto as materialidades quando ouvimos as pessoas não há homogeneidade nas casas e ruas dos jardins bairros que compõem os distritos distantes do centro da metrópole. Entender essa dimensão nos faz desconfiar de medianas e índices generalizantes formulados externamente para sustentar grande parte das ações governamentais e desenhados sem contemplar a complexidade do local.

Inclusão, aprendizagem e tecnologias em educação: pensar a educação no século XXI Carine Bueira Loureiro, Maura Corcini Lopes, 2020-12-29 Organizadoras Carine Bueira Loureiro Maura Corcini Lopes. Se há algo em que o tempo presente tem sido prodigo na abundância de temas para textos e escritas. Vivemos uma gravíssima crise de saúde pública sem precedentes recentes e cujos efeitos estão se estendendo de formas diferentes para a economia para a vida em sociedade e por bvio para os sistemas educacionais mundo afora. No Brasil por sua vez para além do já dito há uma crescente onda conservadora e retrógrada invariavelmente que tem colocado em xeque alguns direitos fundamentais conquistados recentemente. Neste contexto ganha importância uma obra que se propõe a pensar a educação no século XXI. Vivemos um estado pandêmico absolutamente inédito para esta geração de professores e de alunos e tudo que precisamos fazer se apresenta como novo e desafiador. Nós professores não temos receitas prontas para este momento e muito provavelmente continuaremos sem delas. Neste cenário temos mais perguntas do que respostas e não há demérito nenhum nisso pois assim que a ciência e o conhecimento avançam. O coletivo de autores desta obra oriundos de quatro países da América Latina e que compõem uma rede de pensar não se omite aos desafios da atualidade e enfatiza inmeras questões que precisam ser discutidas nos ambientes escolares. E aqui está em minha opinião o grande mérito desta obra: ela nasce com a intenção manifesta de aproximar a academia das escolas de fazer com que as nossas produções irrompam os muros das universidades e institutos e possam estar presentes no maior número possível de espaços.
