Computer Aided Design Guide for Architecture, Engineering and Construction Ghassan Aouad, Song Wu, Angela Lee, Timothy Onyenobi, 2013-06-17 Recent years have seen major changes in the approach to Computer Aided Design CAD in the architectural engineering and construction AEC sector. CAD is increasingly becoming a standard design tool facilitating lower development costs and a reduced design cycle. Not only does it allow a designer to model designs in two and three dimensions but also to model other dimensions such as time and cost into designs. Computer Aided Design Guide for Architecture Engineering and Construction provides an in depth explanation of all the common CAD terms and tools used in the AEC sector. It describes each approach to CAD with detailed analysis and practical examples. Analysis is provided of the strength and weaknesses of each application for all members of the project team followed by review questions and further tasks. Coverage includes 2D CAD 3D CAD 4D CAD nD modelling Building Information Modelling parametric design virtual reality and other areas of future expansion. With practical examples and step by step guides this book is essential reading for students of design and construction from undergraduate level onwards.

Commercial Design Using AutoCAD 2013 Daniel John Stine, 2012-06-29 Commercial Design Using AutoCAD 2013 is designed for the architectural student using AutoCAD 2013. The intent is to provide the student with a well rounded knowledge of tools and techniques for use in both school and industry. This text takes a project based approach to learning AutoCAD in which the student develops a campus library. Each book comes with a CD containing numerous video presentations of the written material. The first two chapters are intended to get the reader familiar with the user interface as well as the most common menus tools and commands that are required to work effectively with AutoCAD 2013. By the end of

chapter two the student will be excited and prepared to take on a much larger project Throughout the rest of the book the student develops the campus library Using step by step tutorial lessons the library project is followed through to create FFE plans interior elevations schedules and details In these chapters many of the additional tools and features of AutoCAD 2013 are covered in greater detail General building codes and industry standard conventions are covered in a way that is applicable to the current exercise
