Use the general ledgers below.

EXTREME ADVENTURES

In May of the current year, Brian Dawson starts a service business called Extreme Adventures. The business provides adventure trips throughout the world, such as trekking in the Himalayas and heli skiing in Colorado. The business rents the facilities in which it operates, pays the utilities, and is responsible for maintenance. Extreme Adventures charges clients for each trip. Most of Extreme Adventures' sales are for cash. However, two private schools use Extreme Adventures for some physical education classes. These schools have an account with Extreme Adventures.

The Essentials of Special Education Research Andrew M. Markelz, Benjamin S. Riden, 2024-08-21 Researchers in special education have been developing a knowledge base of evidence based practices that improve the outcomes of students with disabilities Unfortunately filtering that knowledge into classrooms implemented by special education teachers has been a challenge In *The Essentials of Special Education Research* Andrew M Markelz and Benjamin S Riden directly address the

persistent research to practice gap by systematically presenting the essential components of research that every special education teacher must know The first section investigates the foundations of research and why special education teachers should regularly read research articles It also examines the basic structure of research articles to demystify jargon and provide teachers confidence when reading scientific literature The second section explores various research methodologies that consumers of research must know Methodologies such as literature reviews single case design quantitative qualitative and others are unpacked so that special education teachers know the critical components of these methodologies along with their limitations to become critical consumers of research The third section focuses on putting this knowledge into practice Using practical scenarios the authors demonstrate how a special education teacher can combat common classroom problems by locating and reading relevant research to gain information and implement best practices based on scientific evidence This step by step guide combines the knowledge and skills outlined in this book to truly become a scientific practitioner
