Parody Margaret A. Rose, 1993-09-09 In this definitive work Margaret Rose presents an analysis and history of theories and uses of parody from ancient to contemporary times and offers a new approach to the analysis and classification of modern late modern and post modern theories of the subject The author's Parody Meta Fiction 1979 was influential in broadening awareness of parody as a double coded device which could be used for more than mere ridicule In the present study she both expands and revises the introductory section of her 1979 text and adds substantial new sections on modern and post modern theories and uses of parody and pastiche which also discuss the work of theorists and writers including the Russian formalists Mikhail Bakhtin Hans Robert Jauss Wolfgang Iser Julia Kristeva Roland Barthes Michel Foucault Jacques Derrida Ihab Hassan Jean Baudrillard Fredric Jameson A.S. Byatt Martin Amis Charles Jencks Umberto Eco David Lodge Malcolm Bradbury and others

Revelation (Baker Exegetical Commentary on the New Testament) Grant R. Osborne, 2002-11-01 The Book of Revelation contains some of the most difficult passages in Scripture Grant Osborne's commentary on Revelation begins with a thorough introduction and the many difficulties involved in its interpretation He also examines elements that complicate the interpretation of apocalyptic literature As with all volumes published in the BECNT series Revelation seeks to reach a broad audience with scholarly research from a decidedly evangelical perspective

Revelation Grant R. Osborne, 2023-10-17 The Book of Revelation contains

some of the most difficult passages in Scripture Grant Osborne's commentary on Revelation interprets the text while also introducing readers to the perspectives of contemporary scholarship in a clear and accessible manner Osborne begins with a thorough introduction to Revelation and the many difficulties involved in its interpretation He discusses authorship date of writing and the social and cultural setting of the work He also examines elements that complicate the interpretation of apocalyptic literature including the use of symbols and figures of speech Old Testament allusions and the role of prophetic prediction Osborne surveys various approaches commentators have taken on whether Revelation refers primarily to the past or to events that are yet future Rather than exegeting the text narrowly in a verse by verse manner Osborne examines larger sections in order to locate and emphasize the writer's central message and the theology found therein Throughout he presents his conclusions in an accessible manner When dealing with particularly problematic sections he considers the full range of suggested interpretations and introduces the reader to a broad spectrum of commentators Revelation seeks to reach a broad audience with scholarly research from a decidedly evangelical perspective

Parody and Festivity in Early Modern Art David R. Smith, 2017-07-05 Dwelling on the rich interconnections between parody and festivity in humanist thought and popular culture alike the essays in this volume delve into the nature and the meanings of festive laughter as it was conceived of in early modern art The concept of carnival supplies the main thread connecting these essays Bound as festivity often is to popular culture not all the topics fit the canons of high art and some of the art is distinctly low brow and occasionally ephemeral themes include grobianism and the grotesque scatology popular proverbs with ironic twists and a wide range of comic reversals some quite profound Many hinge on ideas of the world upside down Though the chapters most often deal with Northern Renaissance and Baroque art they spill over into other countries times and cultures while maintaining the carnivalesque air suggested by the book's title
