When They Severed Earth from Sky Elizabeth Wayland Barber, Paul T. Barber, 2012-01-02 Why were Prometheus and Loki envisioned as chained to rocks What was the Golden Calf Why are mirrors believed to carry bad luck How could anyone think that mortals like Perseus Beowulf and St George actually fought dragons since dragons don't exist Strange though they sound however these myths did not begin as fiction This absorbing book shows that myths originally transmitted real information about real events and observations preserving the information sometimes for millennia within nonliterate societies Geologists interpretations

of how a volcanic cataclysm long ago created Oregon's Crater Lake for example is echoed point for point in the local myth of its origin. The Klamath tribe saw it happen and passed down the story for nearly 8 000 years. We however have been literate so long that we've forgotten how myths encode reality. Recent studies of how our brains work applied to a wide range of data from the Pacific Northwest to ancient Egypt to modern stories reported in newspapers have helped the Barbers deduce the characteristic principles by which such tales both develop and degrade through time. Myth is in fact a quite reasonable way to convey important messages orally over many generations although reasoning back to the original events is possible only under rather specific conditions. Our oldest written records date to 5 200 years ago but we have been speaking and mythmaking for perhaps 100 000. This groundbreaking book points the way to restoring some of that lost history and teaching us about human storytelling.

Serpent in the Sky John Anthony West, 2012-12-19 John Anthony West's revolutionary reinterpretation of the civilization of Egypt challenges all that has been accepted as dogma concerning Ancient Egypt. In this pioneering study West documents that Hieroglyphs carry hermetic messages that convey the subtler realities of the Sacred Science of the Pharaohs. Egyptian science, medicine, mathematics and astronomy were more sophisticated than most modern Egyptologists acknowledge. Egyptian knowledge of the universe was a legacy from a highly sophisticated civilization that flourished thousands of years ago. The great Sphinx represents geological proof that such a civilization existed. This revised edition includes a new introduction linking Egyptian spiritual science with the perennial wisdom tradition and an appendix updating West's work in redating the Sphinx. Illustrated with over 140 photographs and line drawings.

Too Great a Sky Liliana Corobca, 2024-10-29 The story of the deportation of Romanians from Bucovina to the steppes of Siberia, an exercise in historical memory and a powerful story of maintaining humanity in impossible conditions. A new novel from Liliana Corobca and her translator Monica Cure, winner of the Oxford Weidenfeld translation prize. Ana is eleven when the Soviet soldiers send her from Bucovina, Romania to Kazakhstan. She is just one of many forced to leave behind her home and make the three-week-long journey via train. The trip is a harsh, humiliating one but in spite of the cold and the closeness of death, life persists in the boxcar in the form of storytelling, riddles and ritual. Years later Ana recalls her childhood for her great granddaughter who is considering moving her to a nursing home. Her story told with unflinching candor is a chronicle of a life lived during a time of great political and national change, a story of an existence defined and curtailed by lines drawn on a map. The narration is interspersed with songs that transform into poems and prayers spoken in the past that become prayers in the present. What links the narration is not so much a plot as it is the reader's astonishment. How could Ana survive such a series of experiences and do so with her mind and heart intact? A history of cruelty and trauma lies behind the banal markers of contemporary life. These realizations combine in the central theme of the book, one which the narrator describes as stories bring you youth.

s book author and illustrator Bruno Gibert is inspired by the true story of the first flight of living creatures in a handmade aircraft On September 19 1783 the Montgolfier brothers demonstrated their new invention the hot air balloon or montgolfi re at the Palace of Versailles before a large crowd including Louis XVI and Marie Antoinette Considered too dangerous for human passengers the experimental vessel carried a sheep a duck and a hen in its basket The balloon flew for about eight minutes covered a distance of roughly two miles and reached an altitude of more than 1 500 feet before landing safely The animals balloon ride caused a sensation and the first human flight followed a few months later By the end of 1783 Louis XVI

had ennobled the Montgolfier family in recognition of the brothers important achievements which perhaps prompted a royal celebration for the animals like the one depicted in the book In Gibert s fantasy the animals anger the king at the fete by describing him as no bigger than the tiniest snail when viewed from high above the ground and Louis imprisons them in the Bastille While the direct role of talking animals in the storming of the Bastille in 1789 can t quite be supported by historical evidence this book does vividly evoke the stirring developments in aeronautics that took place right around the time of the French Revolution Ages five to seven

Comet in Our Sky Poh Soo Kai, Singapore s political firmament is crowded with stars who could have lit up to the island state s history but were snuffed out by detention and harassment before they could do so One of the brightest was probably Lim Chin Siong who with Lee Kuan Yew was one of the founders of the People s Action Party but he spent more time in detention than representing his constituents Lim Chin Siong was the most prominent left wing leader in Singapore for a decade until he was eliminated from the political scene by the infamous Operation Coldstore on February 2 1963 This book is an account of Lim s significance in Singapore s political developments in the decade preceding It also contains tributes by his friends and colleagues in Singapore and Malaysia an assessment of his life by many who were inspired by him This new edition features an essay by Dr Poh Soo Kai and an extract from Lim s posthumous manuscripts
