argument for the significance of the blacklisted migrants to our understanding of postwar American and European cinema and Cold War relations Prime provides detailed accounts of the production and reception of their European films that clarify the ambivalence with which Hollywood was regarded within postwar European culture Drawing upon extensive archival research including previously classified material Hollywood Exiles in Europe suggests the need to rethink our understanding of the Hollywood blacklist as a purely domestic phenomenon By shedding new light on European cinema's changing relationship with Hollywood the book illuminates the postwar shift from national to transnational cinema

R.J.M Pugh,2013-01-19 Most people are familiar with references to Scottish battles such as Bannockburn and Flodden but know little if anything about those events Rugby and soccer fans outside Scotland may wonder at the sign 1314 held up by Scottish fans and not know that it is the date of the Battle of Bannockburn when an English king was defeated on Scottish soil The battle is also commemorated in Scotland's unofficial national anthem The Flower of Scotland Battles fought on Scottish soil include those of the Scottish Wars of Independence those occasioned by the English Civil Wars and the Jacobite Rebellions This book tells the stories of these battles and many others fought in Scotland from the Roman victory at Mons Graupius in AD 83 to the defeat of Bonnie Prince Charlie at Culloden Moor in 1746 **Metaphors of ANGER across**

Languages: Universality and Variation Zoltan Kövecses,Réka Benczes,Veronika Szelid,2024-11-04 Anger is one of the basic emotions of human emotional experience informing and guiding many of our choices and actions Although it has received considerable scholarly attention in a number of disciplines including linguistics a basic question has still remained unresolved why do variations in the folk model of anger exist across languages if it is indeed a basic emotion rooted in largely universal bodily experience By drawing on a wide selection of comparable linguistic data from dozens of languages including a number of less researched languages this volume provides the most comprehensive account of what is universal and what is variable in the folk model of anger and why It also investigates the role that metonymies might play in the emergence of anger related metaphors and in what ways context influences or shapes anger metaphors and thereby the resulting folk model of anger No such volume exists in the cognitive linguistic literature on anger or on emotions for that matter The book is thus an essential contribution to the study of anger and will serve as basic reading for any researcher interested in how the conceptualization of anger is constructed via the interplay of bodily experience language and the larger cultural context
