Routledge Handbook of Ergonomics in Sport and Exercise Youlian Hong, 2013-12-04 Ergonomics is concerned with the fit between people and their work. With an increasing number of people becoming conscious about their health and participating in sport or physical activity, ergonomics has become an increasingly prominent concern within the sport and exercise sciences. From the design of footwear and artificial playing surfaces to studies of proprioception by obese children, the way in which people interact with their environment, designed and natural, has important implications for performance sport and for the design of safe and beneficial forms of physical activity. The Routledge Handbook of Ergonomics in Sport and Exercise is the first book to offer a comprehensive and in-depth survey of cutting-edge scientific research into ergonomics in sport and exercise. Written by world-leading international scientists and researchers, the book explores key topics such as: Musculoskeletal adaptation to sports and exercise; Environmental factors of injury and fatigue; Load, weight and performance; Ergonomics in adapted sports and exercise; Measurement in sports and exercise; Modeling and simulation in ergonomics; design; Influence of playing surface, footwear and equipment design; Bridging the gap between fundamental scientific research in sport and exercise and applications in sport and exercise contexts. This is an important reference for all advanced students, researchers and professionals working in sport and exercise science, kinesiology, sports technology, sports engineering, ergonomics and product design.

Lundin, 2021 Ski jumping once Washington's most popular winter sport was introduced by Norwegian immigrants in the early twentieth century. It began at Spokane's Browne's Mountain and Seattle's Queen Anne Hill moved to midsummer tournaments on Mount Rainier in 1917 and expanded statewide as new ski clubs formed. Washington tournaments attracted the world's best jumpers Birger and Sigurd Ruud, Alf Engen, Sigurd Ulland and Reidar Andersen among others. In 1941 Torger Tokle set two national distance records here in just three weeks. Regional ski areas hosted national and international championships as well as Olympic tryouts entertaining spectators until Leavenworth's last tournament in 1978. Lawyer, historian and award-winning author John W. Lundin re-creates the excitement of this nearly forgotten ski jumping heritage.
