Unlocking

The built-in warning horn rings as confirmation that the vehicle has been unlocked. If the vehicle is unlocked using button of the display or the front of the remote control, the door is unlocked, the vehicle is automatically locked again and the safe starting system, air and theft alarm system is reactivated. This function is intended to prevent the vehicle from being unlocked unintentionally.

In addition, when the car is unlocked, the door is adjustable (up/down) and interior mirrors (externally) are positioned in this way. The stored setting of front seat and exterior mirrors is restored.

Locking

The built-in horn rings to confirm that the vehicle has been correctly locked.

If the doors or trunk lid remain open after the vehicle has been locked, the horn signal begins to ring. The warning horn then stops.

WARNING

If the car is locked from the outside and the infotainment system is activated, there will not be any sound in the car as the horn will continue to ring on the basis of a warning function. The horn will stop if the car is unlocked or if you get into the vehicle or in an emergency situation.

NOTE

A key operates the remote control when the doors and trunk lid are closed and the vehicle is parked.

If the car is being automatically driven the car, the button of the remote control will not be pressed before the car is parked. The car will not start. Should this happen, press the vehicle button of the remote control.

Ignition/stop button

If the vehicle cannot be started by pressing the remote control button then it is recommended that you hold the key up to the engine and the car will start automatically. This can occur when the button on the radio-operated key and receiver is nearer to them outside the operating range of the equipment or the battery on the remote control was replaced.

This means the following is significant in the Lock up follows:

• Press the button the remote control key

• pressing of the button means that the door will unlock with the key within 1 m.
