Slave Masters Slave Trade :

The Complete Concise History of the Slave Trade Olayanju Olajide, 2013-01-23 This book is written mainly from my experience since my arrival in the United Kingdom in the early 1960s I came to the UK before I came in contact with any Afro American or Caribbean In Nigeria I know some people whose parents originally returned to Nigeria from Brazil and Cuba The names of these great people are household names in Nigeria and particularly in Lagos The more I stay in the UK the more I realise that our people from America and Caribbean have very little knowledge of Africa To my greatest surprise some of them think that Africa is a small country I came to the UK before the slave trade became a common topic It is quite clear from my observation that the history of the slave trade is wrongly taught in overseas as far as it concerns Africa Worse still some of our people here think that the whole of Africa was involved in the slave trade This book is to put forward the authentic history of the slave trade Moreover this book will show clearly the areas affected by the slave trade The aim of the writer of this book is to make the history of the slave trade clear and simple to read The idea is to make the book affordable and available as much as possible in order to study the history in Africa and overseas If the history of the slave trade is taught and studied carefully any such mistakes will be avoided in future [Slavery and Forced Migration in the Antebellum South](#) Damian Alan Pargas, 2015 This book sheds new light on domestic forced migration by examining the experiences of American born slave migrants from a comparative perspective It analyzes how different migrant groups anticipated reacted to and experienced forced removal as well as how they adapted to their new homes [The Rush for Black Diamonds, Volume One](#) George Walters-Sleyon, 2024-11-21 The Rush for Black Diamonds Volume One is the first of two volumes It explores the Transatlantic slave trade and its mutation into chattel slavery Volume One focuses on the involvement of two prominent Enlightenment philosophers as the architects of the political legal economic and philosophical justifications for the human trade in the United Kingdom and the United States John Locke 1632 1704 a British philosopher and Father of Liberalism and Thomas Jefferson 1743 1826 the third president of the United States Both men Locke and Jefferson were also slave traders and slave masters Referring to Lockean Slavery and Jeffersonian Slavery The Rush for Black Diamonds Volume One contends that Locke and Jefferson are responsible for the justification and sustainability of chattel slavery and its post slavery racial perceptions and marginalization of Black people in the West Used as a metaphor Black Diamonds captures the exploration of Western nations rush for Black people across the Atlantic Ocean to be used as economic units and chattel property With impunity it was the most disruptive act of human institutions cultures and socioeconomic and political stability with substantial financial social political and racial implications for centuries in human history **British Churches Enslaved and Murdered Black Atlantic Slaves: Contextualization and De-Contextualization of British Slave Trade: 17Th-19Th Century: a Critical Socio-Theological Study** DR. Western European and British Barbarity, Savagery, and Brutality in the Transatlantic Chattel Slave Trade Dr. Robinson A. Milwood PhD, 2013-06-14 Man makes history in a fashion and history also makes man As with other men the historical experience of the African over the centuries has had a profound effect on his self image as well as on his perception of the

external world Perhaps more than other men the African in pre colonial times developed a strong historical tradition and his perception of himself and his world came to depend very much on his view of the past European colonialism brief as it was produced a traumatic effect largely because it tried to impose on the African a gross distortion of his historical tradition

atrocities and such heinous crimes against humanity have all happened in human society Nevertheless such amazing triumphs of good over evil and such astounding achievements of beleaguered people from the most humble beginnings to the highest levels of human dignity have also happened in human society Redemption of a Dream is the story of one race of people sent on a treacherous journey centuries ago and yet the essence of the story came to fulfillment right before our eyes in this generation of our lifetime This is a true story of the struggle for dignity among the various races cultures colors and religions within the largest melting pot on earth Find out how the new world became a multi racial multi cultural multi colored and multi religious society even before the Union was formed This story also chronicles the reflections recollections and lamentations of the author Born and raised in the Gold Coast colony he came to America to fulfill his dream of higher education He also recalls his childhood experiences during the first ever transfer of power from colonial rule to self rule in the first ever Democracy formed in black Africa in 1957 The author strikes an interesting similarity between himself and the father of the 44th President of the United States each came to America in pursuit of his dream of college education and if all goes well maybe experience the American Dream and let the chips fall where they may Find out what happened in each of their separate lives in America Get to the roots of the struggle find out the true origin of the black American struggle for dignity Find out how the stone that the builders rejected became the cornerstone of the finest mansion in the land build by slave labor reserved for nobility and eventually occupied by descendants of the same slaves who built it I grew up in the small canoe fishing town of Christiansborg Osu on the Atlantic coast of West Africa As a child I was fortunate enough to attend the schools that the early Missionaries built during the colonial era Growing up under the shadow of the infamous Christiansborg Castle I quickly learnt what many in our community already knew It was common knowledge that our peaceful and picturesque seaside neighborhood was one of the most vicious slave market centers in black Africa next only to the iniquitous Cape Coast Castle a few hundred miles west of my hometown and the notorious Elmina Castle further to the west of my hometown All three colossal castles still stand today on the sandy shores and in the salt waters of the Atlantic Ocean each colonial castle acting as giant window looking back in retrospect to the ills of the colonial era and the evils of the slavery era I decided to write this book Redemption of a Dream when America elected its first ever African American president in almost three centuries To me this is the greatest and most significant change that ever happened since the new world was discovered I wrote this book solely in honor of the brave heroes and legends of The Struggle from slavery to Presidency Thanks for checking out my story and God bless Ending Slavery Urs Peter Ruf,2015-09-15 Ending Slavery offers insights into the how of practices of slavery that persist in parts of Mauritania up to the present day It brings to the light the gendered structures of Moorish slavery and examines their impact on strategies and tactics designed to bring this institution to an end Underlying this study is empirical data gathered during two periods of field research in rural central Mauritania The analysis of life histories of slaves and freed slaves but also of tributaries and free Moors plays a key role in

the book The Slave Trade, Abolition and the Long History of International Criminal Law Emily Haslam, 2019-09-20

Modern international criminal law typically traces its origins to the twentieth century Nuremberg and Tokyo trials excluding the slave trade and abolition Yet as this book shows the slave trade and abolition resound in international criminal law in multiple ways Its central focus lies in a close examination of the often controversial litigation in the first part of the nineteenth century arising from British efforts to capture slave ships much of it before Mixed Commissions With archival based research into this litigation it explores the legal construction of so called recaptives slaves found on board captured slave ships The book argues that notwithstanding its promise of freedom the law actually constructed recaptives restrictively In particular it focused on questions of intervention rather than recaptives rights At the same time it shows how a critical reading of the archive reveals that recaptives contributed to litigation in important but hitherto largely unrecognized ways The book is however not simply a contribution to the history of international law Efforts to deliver justice through international criminal law continue to face considerable challenges and raise testing questions about the construction and alternative construction of victims By inscribing the recaptive in international criminal legal history the book offers an original contribution to these contentious issues and a reflection on critical international criminal legal history writing and its accompanying methodological and political choices
