The Dutch Slave Trade, 1500-1850, 2006 Dutch historiography has traditionally concentrated on colonial successes in Asia However the Dutch were also active in West Africa Brazil New Netherland the present state of New York

and in the Caribbean In Africa they took part in the gold and ivory trade and finally also in the slave trade something not widely known outside academic circles P C Emmer one of the most prominent experts in this field tells the story of Dutch involvement in the trade from the beginning of the 17th century much later than the Spaniards and the Portuguese and goes on to show how the trade shifted from Brazil to the Caribbean He explains how the purchase of slaves was organized in Africa records their dramatic transport across the Atlantic and examines how the sales machinery worked Drawing on his prolonged study of the Dutch Atlantic slave trade he presents his subject clearly and soberly although never forgetting the tragedy hidden behind the numbers the dark side of the Dutch Golden Age which makes this study not only informative but also very readable *The Danish Slave Trade and Its Abolition* Erik Gøbel,2016-09-07 In *The Danish Slave Trade and Its Abolition* Erik Gøbel offers an account of the well documented Danish transatlantic slave trade Denmark was the seventh largest slave trading nation with forts and factories on the Gold Coast and a colony in the Virgin Islands The comprehensive Danish archival material provides the basis for Gøbel's descriptions of the volume and composition of the slave trade and trade cargoes as well as the shipping and conditions on board along the Middle Passage Attention is also paid to the 1791 Danish Slave Trade Commission report and the final decision to abolish the slave trade altogether *The Danish Slave Trade and Its Abolition* is now available in paperback for individual customers *Tobacco and Slaves* Allan Kulikoff,2012-12-01 *Tobacco and Slaves* is a major reinterpretation of the economic and political transformation of Chesapeake society from 1680 to 1800 Building upon massive archival research in Maryland and Virginia Allan Kulikoff provides the most comprehensive study to date of changing social relations among both blacks and whites in the eighteenth century South He links his arguments about class gender and race to the later social history of the South and to larger patterns of American development Allan Kulikoff is professor of history at Northern Illinois University and author of *The Agrarian Origins of American Capitalism* **Slavery in the Ottoman Empire and its Demise 1800-1909** Y. Erdem,1996-11-20 This study bridges the gap that exists between studies dedicated to the history of slavery in the Western and Islamic worlds It sets itself the goal of understanding how slavery persisted and then met its end in the Ottoman Empire It concentrates on the period between 1800 1909 and examines the policies of the Ottoman state regarding slavery both before and after the reform period known as the Tanzimat It also looks at the British involvement in the issue *A Companion to American Women's History* Nancy A. Hewitt,2008-04-15 This collection of twenty four original essays by leading scholars in American women's history highlights the most recent important scholarship on the key debates and future directions of this popular and contemporary field Covers the breadth of American Women's history including the colonial family marriage health sexuality education immigration work consumer culture and feminism Surveys and evaluates the best scholarship on every important era and topic Includes expanded bibliography of titles to guide further research *Debating the Slave Trade* Srividhya Swaminathan,2016-05-13 How did the arguments developed in the debate to abolish the slave trade help to construct a

British national identity and character in the late eighteenth century Srividhya Swaminathan examines books pamphlets and literary works to trace the changes in rhetorical strategies utilized by both sides of the abolitionist debate Framing them as competing narratives engaged in defining the nature of the Briton Swaminathan reads the arguments of pro and anti abolitionists as a series of dialogues among diverse groups at the center and peripheries of the empire Arguing that neither side emerged triumphant Swaminathan suggests that the Briton who emerged from these debates represented a synthesis of arguments and that the debates to abolish the slave trade are marked by rhetorical transformations defining the image of the Briton as one that led naturally to nineteenth century imperialism and a sense of global superiority Because the slave trade debates were waged openly in print rather than behind the closed doors of Parliament they exerted a singular influence on the British public At their height between 1788 and 1793 publications numbered in the hundreds spanned every genre and circulated throughout the empire Among the voices represented are writers from both sides of the Atlantic in dialogue with one another such as key African authors like Ignatius Sancho Phillis Wheatley and Olaudah Equiano West India planters and merchants and Quaker activist Anthony Benezet Throughout Swaminathan offers fresh and nuanced readings that eschew the view that the abolition of the slave trade was inevitable or that the ultimate defeat of pro slavery advocates was absolute

Credit, Currencies, and Culture Endre Stiansen, Jane I. Guyer, 1999 A striking feature of African history is the volume of commerce and production that has been possible without the full panoply of credit insurances future markets stock companies limited liability and other legal and financial services that make up the formal sector of modern economies The contributions to this volume investigate institutional nexuses through which money has been managed in Africa Together they present important perspectives that are needed to understand the present economic crisis on the continent *The Development of Indigenous Trade and Markets in West Africa* Claude Meillassoux, 2018-09-03 Originally published in 1971 and written in English and French with summaries in both languages the essays in this volume discuss the effects of internal economic and political conditions and of external relations on the development of trade and markets in West Africa from the period of the slave trade to the growth in the 20th century in production for overseas markets and rapidly expanding urban centres Other essays discuss various aspects of local and regional trade and markets from the nineteenth century onwards

Greene, Martin A. Klein, 2016-04-14 Explores how to use different types of sources to write the history of slavery and the slave trade in Africa **Arming Slaves** Christopher Leslie Brown, Philip D. Morgan, 2008-10-01 Arming

slaves as soldiers is a counterintuitive idea Yet throughout history in many varied societies slaveholders have entrusted slaves with the use of deadly force This book is the first to survey the practice broadly across space and time encompassing the cultures of classical Greece the early Islamic kingdoms of the Near East West and East Africa the British and French Caribbean the United States and Latin America To facilitate cross cultural comparisons each chapter addresses four crucial issues the social and cultural facts regarding the arming of slaves the experience of slave soldiers the ideological origins and consequences of equipping enslaved peoples for battle and the impact of the practice on the status of slaves and slavery itself What emerges from the book is a new historical understanding the arming of slaves is neither uncommon nor paradoxical but is instead both predictable and explicable
