

Personal Reflection on Values and Ethics Essay

Introduction

It is no secret that we live in an increasingly busy world. As we work and pursue our personal interests, it is important to have ethics and critical values guide our actions, lest we lose focus on what is important. In all my daily undertaking, I am normally guided by one simple values and ethics statement: In my pursuit of self-interests, I should endeavor to do right by other people, developing their capacity to become a better version of themselves. This statement has three crucial parts that are worth noting. Firstly, as is the case with everything else, I have my needs, wants and aspirations as a human being. Therefore, I will seek to maximize them in a way that grants me utility. However, while doing so, I must remain sensitive of other people's needs as well, because I live in a society that has other people who have the right to pursue their interests just as much as I do (Synowiec, 2016). Thirdly, there are those with lesser means than myself, but whose dreams are just as valid as mine. To such people, I should render a helping hand in a way that helps them realize their dreams and potential. These ethical values and perspectives are based on my understanding of life as well as the concept of love. I believe that life should be lived in a manner that enhances my happiness as well as that of other people. While living, it is important to show love, not only to myself, but also to other people as well. As a result, pursuing my dreams while also according others the opportunity to do so (even rendering a helping hand, if and when necessary), is the right philosophy to approach life. It is for this reason that my values and ethics statement is as described above, taking great care to advance my wellbeing while being sensitive to the affairs of others.

The Development of My Values and Ethics

The values that I hold in high esteem are the culmination of the life I have lived in the past. They are the sum total of what I was taught as a child as well as what I have learnt over the course of time. As a child, my parents insisted that ours was a competitive world, thus I had to work hard to find a place in it. However, they also taught me the importance of respecting the wishes of other people, because they too were on a journey to better their lives. Through my education, I came to appreciate the practicality of these teachings. As I grew up, I realized the importance of working hard to succeed while at the same time not being an obstacle to other people in their quest to realize their dreams. I also learnt that some people were not as fortunate as I was, yet they were just as talented as I was; if not more. As a result, I learnt that with a little help, they could be able to realize their potential. With time, I came to appreciate the importance of helping such individuals. I can say that these ethics and values have helped me realize a life full of love - loving myself as well as other people. Most importantly, I have known that love is to be received and shared, because giving is just as fulfilling as receiving. It is important to remind that in this case, love is to be defined as a genuine care and concern for the wellbeing of myself as well as others.
