Shell Annual Report 2006

C.A. Brebbia, J.W.S. Longhurst

Shell Annual Report 2006:

Corporate Social Responsibility in Europe Regine Barth, Franziska Wolff, 2009-01-01 The acid test of corporate social responsibility CSR is simply this does it lead to positive impacts on society and the environment or is it just rhetoric And if it does lead to positive impacts how can these be enhanced This timely book tackles this cutting edge challenge by presenting empirical findings from a range of surveys and in depth case studies These build on a new methodological and theoretical framework for assessing and explaining the sustainability impact of CSR For selected sustainability issues mitigation of climate change and chemical risk resource management in marine fisheries promotion of gender equality and countering of bribery and within different European industries the authors show that the rhetoric of CSR is still stronger than its reality They do so by investigating into CSR practices which encompass the creation of a vision on CSR its strategic and operative implementation and its organisational and cultural embedding within companies and their supply chains The authors conclude that the reality of CSR is strong enough to allow for some rhetoric They name intra and extra company success factors for and limits of producing sustainability impacts through CSR Finally they discuss its contribution to achieving public policy goals and the governance paradigms that are necessary to make CSR effective The volume successfully combines a business and public policy perspective based on an interdisciplinary approach This book will be invaluable for both students and researchers interested in the effects of CSR and will prove a useful tool for policy makers and CSR practitioners alike

Corporations and Counterinsurgency William Rosenau, Peter Chalk, Renny McPherson, Michelle Parker, Austin Long, 2009-08-18 Multinational corporations can be significant actors in zones of violent conflict Corporate actions to shape their environment can sometimes mitigate conflict but as the authors show in their case studies corporate activities can help generate and sustain violence

The Entrepreneurship of GF Securities in China's Capital Markets Chen Yunxian, Ma Qingquan, 2022-09-30 This book describes the entrepreneurial of a Chinese securities firm from the early 1990s and reviews the 30 year history of China's capital markets with a panoramic and coherent view of the birth and development of a securities institution It highlights the distinctive feature of intellectual entrepreneurship and demonstrates the historical commitment of the intellectual community in China's reform and opening up era The book presents rich details of the development and evolution of the securities industry Whether it is an analysis of the origin of the term investment banking in China or a live account of international financial events or the journey of fund practitioners they all give readers a glimpse into the microcosm of China's capital markets This book provides valuable historical information and ideas for the study of the history of China's capital markets

Minerals Yearbook, 2009

Regulating Transnational Corporations in Domestic and International Regimes Evaristus Oshionebo, 2009-01-01 This study explores the range of strategies for regulating the social and environmental practices of TNCs in Africa's extractive industries

, Restructuring and Re-organization of the Iraqi Oil Ministry and State-owned Oil Companies for Maximum Economic Growth and National Development Muhammed

Abed Mazeel, 2012 The first steps towards restructuring and reorganizing the institutions and legislation of the Iraqi oil and gas industry must include taking ownership of resources allocating acreages to Iraqi Kurdistan and neighbour states improving the transparency as well as governmental participation and fiscal principles It is important to provide an institutional framework that governs the operations of the industry including its functions structure powers and funding Operations in the upstream of the industry comprise licenses leases and contracts Other considerations covered are award processes right of governmental participation marginal fields indigenous companies termination and revocation of both licenses and leases matters on fees rents and royalties and finally provisions on Associated Natural Gas The legislation in the downstream sector focuses on licensing refining marketing and pricing of oil products transport logistics and facility management companies pipelines and depots The operating stocks and Iraq strategic stocks are also necessary The needs of the downstream natural gas include both technical and commercial licensing regulations and conditions as the network gas supply licenses transportation pipelines licenses and the whole sale market in addition to the possibility of third party access customer protection the pricing regime public service obligations competition and market regulation The legislation is an amendment to the existing Iraqi Technical Service Contracts TSC and Production Sharing Contracts Agreements PSC in Iraqi Kurdistan based on the need to create a new fiscal framework that takes various compelling issues into consideration It needs to capture the full gas value chain for taxation purposes in order to develop a fiscal regime for gas removed from oil and to create thereby a level playing field for all investors in gas and promoting the effective management of costs across the industry which in turn will maximize the government's take Other considerations revolve around the requirement to develop a fiscal system which responds to changes in price and to clarify inconsistencies or conflicts in the application of fiscal terms for oil and gas and finally to develop a fiscal rule of general application based on a body of expected fiscal laws Quality health safety and environment are missing elements in Iraq During the restructuring and reorganization of the institutions the QHSE should take on a major role in working with the aforementioned departments in the Oil Ministry and the operating companies The obligations of the state and international oil companies towards the state environmental regulations and public rules must be upheld according to the licensees lessees and contractors considering matters of abandonment decommissioning and disposal and their funding The various actors in the oil and gas production are obligated towards various communities in the oil producing region of the country with supporting community development providing employment opportunities compensation infrastructure protection and management of the environment as essential components The Ministry of Oil remains a civil service outfit that is ill equipped to conceive and enact the required policies for such a complex and sophisticated industry Hence there is a strong need for principal and basic interaction between Federal Oil Ministry existing directorial and state oil companies Kurdistan Ministry of Energy and Natural Resources and private sector operatives This applies also to the reorganization and restructuring of Federal Oil Ministry existing directorial

and state oil companies Iraqi National Oil Company and Iraqi National Gas Company *Exploring the Skyrocketing Price of Oil* United States. Congress. Senate. Committee on the Judiciary,2008 Air Pollution XVI C.A. Brebbia,J.W.S.

Longhurst,2008-09-12 Bringing together recent results and state of the art contributions from researchers around the world this text contains papers first presented at the 16th International Conference on the Modelling Monitoring and Management of Air Pollution **Corporate Governance and Resource Security in China** Xinting Jia,Roman Tomasic,2009-10-20

Looking at the governance of resources companies in China this book tackles contemporary issues of resource security and environmental change which are closely related to the depletion of the world s natural resources It contains case studies of other international resources giants such as BHP Billiton Rio Tinto Shell and Chevron to enhance readers understanding of the differences that exist between them and Chinese resources companies **A Global View of Financial Accounting**

Roger Hussey,Talal Al-Hayale,2022-07-13 In this book we discuss the specific pressures and decisions that influences the changes in corporate reporting The importance of corporate financial reporting has increased over the years Accountants have developed standards that ensure the financial information issued by companies is rigorous and assists the users of the information in making decisions Initially counties developed their own standards but the increase in world wide trade demonstrated the need for an international approach to standard setting This led to the establishment of International Accounting Standards Board IASB and the issue of international accounting standards Although accounting standards originally focused on financial information that would be of interest to investors in a company there is an increasing interest in all corporate activities that shape the way we live In this book we discuss the specific pressures and decisions that influences the changes in corporate reporting with emphasis given to the U K the United Sates and Islamic countries We also discuss the impact of advances in technology on corporate reporting and we review the nature of information provided by companies to a wider audience than shareholders **Energy Security** Richard Youngs,2009-01-28 The geopolitics of oil and gas have made a spectacular return to the international political agenda The European Union EU has recognized the importance of incorporating energy security more systematically into foreign policy It has committed itself to pursuing an energy security policy based on market interdependence European unity and long term governance improvements in producer states In offering the first broad global assessment of the foreign policy dimensions of EU energy security this book considers how far these commitments have been implemented Examining how the EU s general approach to energy security has played out in the specific political contexts of different countries and regions distinctive features of the book include a thorough analysis of current EU strategies towards energy security assessing the EU as an international actor a key focus on the governance structures of producer states including the Middle East Russia Central Asia and the Caspian and Sub Saharan Africa a major addition to debates surrounding markets and geopolitics informing both international relations and international political economy This book will be of interest to students scholars and policy makers in the fields of European

EU Politics energy politics foreign policy and International Relations Corporate Security Responsibility? N. Deitelhoff, K. Wolf, 2010-01-13 Corporate Security Responsibility focuses on the role of private business in zones of conflict The book contributes to closing the gap between research on Global Governance and Peace and Conflict Studies It applies a systematic research design to the study of corporate governance contributions to peace and security across a number of cases Chop Fine Chris Albin-Lackey, Human Rights Watch (Organization), 2007 Recommendations Methodology Background and context Oil poverty and governance in Nigeria Local government corruption and mismanagement in River State an overview Impact of local government corruption and mismanagement on primary education and primary health care in Rivers State Roots of local level corruption in Rivers State Nigeria's obligation under international law Nigerian government efforts to fight corruption International efforts to promote transparency and fight corruption **Corporate Social Responsibility and Human Resource Management** Mine Karataş-Özkan, Katerina Nicolopoulou, Mustafa F. Özbilgin, 2014-08-29 Including both theoretical and empirical chapters the contributors explore how global organisations and organisational networks can collaborate with stakeholders within their community to leverage their HRM strategies *Making Sustainability Work* Marc J. Epstein, Adriana Rejc Buhovac, 2017-09-08 The ultimate how to do it guide for corporate leaders strategists academics sustainability consultants and anyone else with an interest in actually making sustainability work for organizations An updated edition of a landmark book at a time when a growing number of corporate leaders are asking for urgent help in getting this done **Implementation of Oil Related Environmental Policies in Nigeria** Fidelis Allen, 2011-10-18 Fidelis Allen situates violent conflict in the Niger Delta in the context of failure by government to effectively implement relevant oil related environmental policies intended to achieve sustainable development arguing that oil and environment related conflicts in the region are reflections of this failure This failure is premised on the notion that the goal of sustainable development as clearly outlined in Nigeria's National Environmental Policy and implied in various other policies can be pursued through the activities of government individuals and business organisations that are capable of engendering economic and social progress for communities that depend on the environment for their survival In fact available evidence shows that government and oil company activities or failures to act actually contribute to the despoliation of the environment in the Niger Delta Despite existing environmental legislations and guidelines unsafe waste disposal flaring of gas and oil spillage remain key features of oil industry operations in the Niger Delta Not surprisingly the book highlights a lack of synergy between government and oil company activities and the attainment of sustainable development as a key goal of the environmental policy of the government In other words the activities of the government and oil companies do not sufficiently promote sustainable development The net consequence is reflected in the frustrations of local justice and environmental movement groups about the political processes which deter rather than enable their agitation for improvements in local living conditions and development in the Niger Delta Over time those frustrations begin to manifest at different levels

including aggressive and violent behaviours against oil companies and government security agencies for their contributory roles

Oil on the Brain Lisa Margonelli, 2007-01-30 Oil on the Brain is a smart surprisingly funny account of the oil industry the people economies and pipelines that bring us petroleum brilliantly illuminating a world we encounter every day Americans buy ten thousand gallons of gasoline a second without giving it much of a thought Where does all this gas come from Lisa Margonelli's desire to learn took her on a one hundred thousand mile journey from her local gas station to oil fields half a world away In search of the truth behind the myths she wriggled her way into some of the most off limits places on earth the Strategic Petroleum Reserve the New York Mercantile Exchange's crude oil market oil fields from Venezuela to Texas to Chad and even an Iranian oil platform where the United States fought a forgotten one day battle In a story by turns surreal and alarming Margonelli meets lonely workers on a Texas drilling rig an oil analyst who almost gave birth on the NYMEX trading floor Chadian villagers who are said to wander the oil fields in the guise of lions a Nigerian warlord who changed the world price of oil with a single cell phone call and Shanghai bureaucrats who dream of creating a new Detroit Deftly piecing together the mammoth economy of oil Margonelli finds a series of stark warning signs for American drivers

Mergent International News Reports, 2008 Witwassen en financiering van terrorisme, 3de, herziene uitgave
Geert Delrue, 2014-02-10 Witwassen van gelden en kapitalen vormt een hardnekkig probleem en is een bedreiging voor het financieel economisch gebeuren Het doel is de illegaal verworven vermogensvoordelen terug in het legale circuit te brengen Dit gebeurt via ingewikkelde financiële mechanismen zonder een spoor na te laten van de illegale oorsprong Dit boek is een referentiewerk voor al wie betrokken is bij de bestrijding van het witwassen van kapitalen en financiering van terrorisme Het beschrijft uitvoerig de werking van het systeem van witwassen de typologieën en de methoden om atypische transacties tijdig te kunnen herkennen De derde editie behandelt onder meer recente wijzigingen aan de anti witwaswet aanpassingen aan de fiscale wetgeving en het Strafwetboek fiscale fraude al dan niet georganiseerd een analyse van meer dan 500 jaarlijkse rapporten van meer dan 50 Financial Intelligence Units betreffende verschillende typologieën en witwasmethoden de nieuwe 40 internationale normen van de Financial Action Task Force FATF met betrekking tot het witwassen van kapitalen de financiering van terrorisme en de proliferatie van massavernietigingswapens de vierde Europese anti witwasrichtlijn
