The World, the Text, and the Indian Scott Richard Lyons,2017-03-27 Since the rise of the Native American Renaissance in literature and culture during the American civil rights period a rich critical discourse has been developed to provide a range of interpretive frameworks for the study recovery and teaching of Native American literary and cultural production For the past few decades the dominant framework has been nationalism a critical perspective placing emphasis on specific tribal nations and nationalist concepts While this nationalist intervention has produced important insights and questions regarding Native American literature culture and politics it has not always attended to the important fact that Native texts and writers have also always been globalized The World the Text and the Indian breaks from this

framework by examining Native American literature not for its tribal national significance but rather its connections to global transnational and cosmopolitan forces Essays by leading scholars in the field assume that Native American literary and cultural production is global in character even claims to sovereignty and self determination are made in global contexts and influenced by global forces Spanning from the nineteenth century to the present day these analyses of theories texts and methods from trans indigenous to cosmopolitan George Copway to Sherman Alexie and indigenous feminism to book history interrogate the dialects of global indigeneity and settler colonialism in literary and visual culture *That Dream Shall Have a Name* David L. Moore, 2020-04-01 The founding idea of America has been based largely on the expected sweeping away of Native Americans to make room for EuroAmericans and their cultures In this authoritative study David L Moore examines the works of five well known Native American writers and their efforts beginning in the colonial period to redefine an America and American identity that includes Native Americans *That Dream Shall Have a Name* focuses on the writing of Pequot Methodist minister William Apress in the 1830s on Northern Paiute activist Sarah Winnemucca in the 1880s on Salish M tis novelist historian and activist D Arcy McNickle in the 1930s and on Laguna poet and novelist Leslie Marmon Silko and on Spokane poet novelist humorist and filmmaker Sherman Alexie both in the latter twentieth and early twenty first centuries Moore studies these five writers stories about the conflicted topics of sovereignty community identity and authenticity always tinged with irony and often with humor He shows how Native Americans have tried from the beginning to shape an American narrative closer to its own ideals one that does not include the death and destruction of their peoples This compelling work offers keen insights into the relationships between Native and American identity and politics in a way that is both accessible to newcomers and compelling to those already familiar with these fields of study *The Western Historical Quarterly*, 2010
