Ortner, 2020-03-31 The Sherpas were dead two more victims of an attempt to scale Mt Everest Members of a French climbing expedition sensitive perhaps about leaving the bodies where they could not be recovered rolled them off a steep mountain face One body however crashed to a stop near Sherpas on a separate expedition far below They stared at the frozen corpse stunned They said nothing but an American climber observing the scene interpreted their thoughts Nobody would throw the body of a white climber off Mt Everest For more than a century climbers from around the world have journeyed to test themselves on Everest's treacherous slopes enlisting the expert aid of the Sherpas who live in the area Drawing on years of field research in the Himalayas renowned anthropologist Sherry Ortner presents a compelling account of the evolving relationship between the mountaineers and the Sherpas a relationship of mutual dependence and cultural conflict played out in an environment of mortal risk Ortner explores this relationship partly through gripping accounts of expeditions often in the climbers own words ranging from nineteenth century forays by the British through the historic ascent of Hillary and Tenzing to the disasters described in Jon Krakauer's Into Thin Air She reveals the climbers or sahibs to use the Sherpas phrase as countercultural romantics seeking to transcend the vulgarity and materialism of modernity through the rigor and beauty of mountaineering She shows how climbers behavior toward the Sherpas has ranged from kindness to cruelty from cultural sensitivity to derision Ortner traces the political and economic factors that led the Sherpas to join expeditions and examines the impact of climbing on their traditional culture religion and identity She examines Sherpas attitude toward death the implications of the shared masculinity of Sherpas and sahibs and the relationship between Sherpas and the increasing number of women climbers Ortner also tackles debates about whether the Sherpas have been spoiled by mountaineering and whether climbing itself has been spoiled by commercialism **Tigers of the Snow and Other Virtual**

Sherpas Vincanne Adams, 2014-05-06 Sherpas are portrayed by Westerners as heroic mountain guides or tigers of the snow as Buddhist adepts and as a people in touch with intimate ways of life that seem no longer available in the Western world In this book Vincanne Adams explores how attempts to characterize an authentic Sherpa are complicated by Western fascination with Sherpas and by the Sherpas desires to live up to Western portrayals of them Noting that diplomatic aides at world summit meetings go by the name Sherpa as do a van in the U K built for rough terrain and a software product from Silicon Valley Adams examines the authenticating effects of this mobile signifier on a community of Himalayan Sherpas who

live at the base of Mount Everest Nepal and its deauthenticating effects on anthropological representation This book speaks not only to anthropologists concerned with ethnographic portrayals of Otherness but also to those working in cultural studies who are concerned with ethnographically grounded analyses of representations Throughout Adams illustrates how one might undertake an ethnography of transnationally produced subjects by using the notion of virtual identities In a manner informed by both Buddhism and shamanism virtual Sherpas are always both real and distilled reflections of the desires that produce them

Steps toward a Tibetan Understanding of Purity James E. Morrison, 2025-03-27 Though of little concern to most westerners notions of what is considered clean and unclean pure and impure are of great importance to many cultures Both ritual and moral purity and impurity are significant concerns for Tibetan Buddhists and Buddhists at large being foundational to how they live their everyday lives Steps Towards a Tibetan Understanding of Purity provides a detailed analysis of Tibetan conceptions of purity and purification through a careful examination of salient Tibetan texts across a wide range of genres The practical applications of this study articulate ways to contextualize the good news of Jesus in a Tibetan Buddhist context with an emphasis on the gospel of purification Such an approach provides the reader with renewed impetus to share the gospel in meaningful and relevant ways to a Buddhist audience while also providing additional insights into the worldview of Tibetans

The Sherpas and Their Original Identity Serku Sherpa, Yana Wengel, 2023-04-11 This book offers a cultural and historical perspective on the Sherpa people exploring how their traditional way of life has been impacted by such factors as urbanisation modernisation globalisation and tourism Though Nepal is a small country it is rich in ethnic religious linguistic and cultural resources Various communities living in Nepal including the Sherpas have their own original cultures traditions and practices Despite outside influence the Sherpa people have preserved their distinct lifestyle which encompasses a unique history culture religion language cuisine and set of traditions It was only after the summit of Everest in 1953 that domestic and foreign scholars began to take an interest in documenting the Sherpa people's way of life The Sherpa's language is an oral one and with this comes difficulties Various translations into other languages have caused mistranslations and a loss of meaning Written by a Sherpa this book seeks to overcome these linguistic barriers and bring Sherpa culture to the reader Serving as a collection of knowledge from distinguished scholars of the Sherpa community religious leaders intellectuals social workers and community organisations this book is a unique auto ethnographic work which bridges the gap between researchers speaking other languages and Sherpa people

Tibetan Diary Geoff Childs, 2004-09-27 High in the Nepali Himalaya are a number of ethnic Tibetan communities Geoff Childs presents a portrait of Nubri Kutang in which he chronicles the daily lives of community members in all their tangled intricacies

Theorizing Rituals Jens Kreinath, Michael Strausberg, 2006 Volume two of Theorizing Rituals mainly consists of an annotated bibliography of more than 400 items covering those books edited volumes and essays that are considered most relevant for the field of ritual theory Instead of proposing yet another theory of ritual the bibliography is a comprehensive monument documenting four decades of

theorizing rituals *Reading Ethnography* David Jacobson,1991-07-03 This book presents a model for analyzing and evaluating ethnographic arguments It examines the relationship between the claims anthropologists make about human behavior and the data they use to warrant them Jacobson analyzes the textual organization of ethnographies focusing on the ways in which problems interpretations and data are put together He examines in detail a limited number of well known ethnographic cases which are selected to illustrate basic theoretical frameworks and modes of analysis By advancing a method for assessing ethnographic accounts the book contributes to the current debate on the role of rhetoric and reflexivity in anthropology Tibetan Ritual Jose Ignacio Cabezon,2009-12-08 This is the first scholarly collection to focus on this important subject Unique in its historical geographical and disciplinary breadth this book brings together eleven essays by an international cast of scholars working on ritual texts institutions and practices in the greater Tibetan cultural world Tibet Nepal Bhutan and Mongolia *The Sherpas of Nepal in the Tibetan Cultural Context* Robert A. Paul,1989 **Passionate Enlightenment** Miranda Shaw,2022-06-07 The now classic exploration of the role of women and the feminine in Buddhist Tantra The crowning cultural achievement of medieval India Tantric Buddhism is known in the West primarily for the sexual practices of its adherents who strive to transform erotic passion into spiritual bliss Historians of religion have long held that this attempted enlightenment was for men only and that women in the movement were at best marginal and subordinated and at worst degraded and exploited In *Passionate Enlightenment* Miranda Shaw argues to the contrary and presents extensive evidence of the outspoken and independent female founders of the Tantric movement and their creative role in shaping its distinctive vision of gender relations and sacred sexuality Including a new preface by the author this Princeton Classics edition makes an essential work available for new audiences **Sherpas** James F. Fisher,1990-05 James Fisher combines the strengths of technical anthropology literary memoir and striking photography in this telling study of rapid social change in Himalayan Nepal The author first visited the Sherpas of Nepal when he accompanied Sir Edmund Hilary on the Himalayan Schoolhouse Expedition of 1964 Returning to the Everest region several times during the 1970s and 1980s he discovered that the construction of the schools had far less impact than one of the by products of their building a short take off and landing airstrip By reducing the time it took to travel between Kathmandu and the Everest region from a hike of several days to a 45 minute flight the airstrip made a rapid increase in tourism possible Beginning with his impressions of Sherpa society in pre tourist days Fisher traces the trajectory of contemporary Sherpa society reeling under the impact of modern education and mass tourism and assesses the Sherpa s concerns for their future and how they believe these problems should be and eventually will be resolved **Landscape, Ritual and Identity among the Hyolmo of Nepal** Davide Torri,2020-03-20 This book analyses the social political and religious life of the Hyolmo people of Nepal Highlighting patterns of change and adaptation it addresses the Shamanic Buddhist interface that exists in the animated landscape of the Himalayas Opening with an analysis of the ethnic revival of Nepal the book first considers the Himalayan religious landscape

and its people Specific attention is then given to Helambu home of the Hyolmo people within the framework of Tibetan Buddhism The discussion then turns to the persisting shamanic tradition of the region and the ritual dynamics of Hyolmo culture The book concludes by considering broader questions of Hyolmo identity in the Nepalese context as well as reflecting on the interconnection of landscape ritual and identity Offering a unique insight into a fascinating Himalayan culture and its formation this book will be of great interest to scholars of indigenous peoples and religion across religious studies Buddhist studies cultural anthropology and South Asian studies

Ritual Catherine Bell, 2009-12-29 From handshakes and toasts to chant and genuflection ritual pervades our social interactions and religious practices Still few of us could identify all of our daily and festal ritual behaviors much less explain them to an outsider Similarly because of the variety of activities that qualify as ritual and their many contradictory yet in many ways equally legitimate interpretations ritual seems to elude any systematic historical and comparative scrutiny In this

book Catherine Bell offers a practical introduction to ritual practice and its study she surveys the most influential theories of religion and ritual the major categories of ritual activity and the key debates that have shaped our understanding of ritualism Bell refuses to nail down ritual with any one definition or understanding Instead her purpose is to reveal how definitions emerge and evolve and to help us become more familiar with the interplay of tradition exigency and self expression that goes into constructing this complex social medium *Order In Paradox Myth, Ritual And Exchange Among Nepal`S Tamang*
