truck drivers can expect to earn 30 000 40 000 in their 1st year I know some drivers who work as Solo drivers and decide to give up their apartments so they can stay in the truck all year long and save money They still take days off from time to time and stay with friends family or rent a hotel for a few days so they can take a break Once you have 6 months experience you may be able to find a job that pays more money I ve seen motivated drivers earning in the 60 000 range in their 1st year The money is there to earn if you look for it Too many drivers get complacent and they stay with the same company in the same position making low wages for years and years Sometimes all you need to do to increase your income is switch positions within the company If the company you work for doesn t offer anything that will take you to the next level then find another company that will I know a Walmart driver who earns 100 000 year and he s home every night and weekend Companies pay you in cents per mile CPM so the more mileage you drive the more you earn The bottom line is company drivers can make anywhere from 30 000 to around 100 000 per year Stay away from company lease options 99% of the time only the company

does well with this type of position They will make their lease program sound perfect touting how you will be your own boss and make lots of money Drivers often find themselves making just enough to cover the WEEKLY truck lease payment If you want to truly be your own boss as a owner operator of your own truck then save up the money to buy a used truck cash or you may be able to find a 3rd party not company sponsored lease program I have seen a couple of decent 3rd party lease programs these will allow you to contract with any company you want So if you re not making enough money with one company then you can easily switch to another Owner operators can make anywhere from 50 000 250 000 per year About the Expert I have been driving a truck full time for over 4 years at the time of this publishing I have been a company driver for 3 of those years and an owner operator for a bit over one In the 4 years that I ve been driving I have spent one year driving most of the lower 48 states I haven t made it up to North Carolina and a few other states in the northeast but all of the others I have For the last two years I have been truck driving with my team from Los Angeles to the Kansas City area and back We did that twice a week After doing that for about a year I was able to get a driving position working nights and being home every day I did that for almost year I left there because the company did a pathetic job of maintaining their equipment I was afraid of getting stopped by law enforcement So I left them and got my own truck to take care of Now I am contracted with a carrier to move their freight and it works out a lot better HowExpert publishes quick how to guides on all topics from A to Z by everyday experts

Career as a Truck Driver Institute for Career Research,2019-01-26 ONE OF THE MOST IN DEMAND OCCUPATIONS today is truck driver Truckers drive heavy duty trucks and tractor trailers on local routes or across North America Trucks convey more than 70 percent of domestic freight The demand for truckers who can deliver the goods continues to grow from e commerce vendors such as Amazon and major retailers like Walmart The 738 billion trucking industry supports more than seven million jobs including more than three million drivers according to industry statistics There may be as many as 3 5 million truck drivers in the United States hauling over 10 billion tons of freight in one year Still transportation companies are unable to find enough skilled qualified drivers to meet their customers demands The trucker shortage is expected to worsen as more veteran drivers retire in coming years As a result of steady demand the job outlook and pay for truckers continues to be strong The median salary for heavy and tractor trailer truck drivers is about 45 000 according to government statistics However a recent survey by the American Trucking Associations found the median salary for a national truckload driver exceeds 55 000 while private fleet drivers report earning as much as 85 000 annually Employment is expected to grow

rapidly in the coming decade The Commercial Vehicle Training Association CVTA states the industry faces a shortage of almost 40 000 drivers each year and that shortfall could reach over 100 000 Would a trucking career be right for you Most employers require a high school diploma or GED to get started as well as a certificate from a professional truck driving school You will also have to obtain a commercial driver s license from the state where you live which requires written and driving tests a clean driving record and regular physical exams The profession requires good physical health stamina and a solid driving record Most truckers work for transportation companies but some are self employed Would you like to work independently outside an office setting Do you like to travel Would you be able to handle the stress of long days battling traffic and bad weather Do you prefer the solitude of working alone or to team up with a driving partner Would the loneliness of being away from home days even weeks at a time be undesirable Driving a truck is not for everyone but if you enjoy being on the open highway you can enjoy a financially rewarding career in this industry A combination of training hard work aptitude and positive personal traits can help you achieve the personal and professional satisfaction in the trucking field
