Our Sky+HD box is a video recorder and satellite receiver in one, making it easy to record and store a collection of your favourite programmes to watch whenever you want. The 250GB storage capacity means you can store **180** hours of SD content and **60** hours of HD content. Sky+ also allows you to record two programmes at once, pause and rewind live TV and more. Plus you can set up TV recordings remotely using your mobile or online at sky.com with Remote Record, so you can record the TV you love wherever you are.

We're always looking for ways to make improvements for our customers, and as we make improvements and create new features we update the software you see on screen by sending it via the satellite. We'll let you know about these new features as soon as they're available.

Sky's On Demand service gives you a library of TV on demand once you've connected your Sky+HD box to your broadband router. When connecting your Sky+HD box to your broadband router via WiFi please ensure you have enabled security on your wireless network and that a strong password has been set. Please also ensure that you only share your wireless network password with trusted people as connecting your Sky+HD box will allow certain other devices (with Sky software or applications installed) on your wireless network to access information on your Sky+HD box, such as a list of your Planner recordings.
