*Creating A Political Legacy* Denny JA, 2020-08-01. Based on his experience being a key actor in SBY's presidential win in 2004, Golkar's success in 2004, Denny JA went to speak with the Golkar party leadership leading up to the 2005 regional elections. The political face of elections has never been the same. In 2005, for the first time in Indonesian political history, a political party signed an agreement with a public survey and political consultancy organization, the Indonesian Survey Institute or Lingkarang Survei Indonesia (LSI). Denny JA selected 200 candidates to run in the first direct election for regional leadership positions (pilkada). Since that time, political parties in Indonesia have worked closely with survey organizations. The year 2020 marks 17 years for Denny JA practicing as a political consultant and with public surveys. Not only was he recognized internationally with an award from TIME MAGAZINE, a world record in the World Guinness Book of Records, and global recognition from Twitter, Denny JA was a key member of the team that won the first four Indonesian presidential direct elections (4 in succession), 33 successful governor races, and 95 mayor and district leader elections. Denny JA and his Indonesian Survey Institute (LSI) also broke records for the most accurate quick count, the fastest counts, the most accurate survey predictions, and the most front-page headlines in national newspapers. A new political era has arrived. And Denny JA is considered by many as The Founding Father of political consultants in Indonesia. With this book, he shares his new theory of political marketing described in a 10-Principle Model. Denny JA writes that it is not enough for a leader to win elections to become a public official. A leader should create a legacy and place a brick in the wall to build a better society for all.
