

Oil Filters

**DANGER**

Before working on or inspecting a vehicle, set the parking brakes, place the transmission in neutral and block the wheels. Failure to do so can result in unexpected vehicle movement and can cause serious personal injury or death.

**WARNING**

Hot oil can cause severe burns. Do not allow hot oil to contact the skin. When changing oil, wear protective gloves.

**CAUTION**

Use only the engine manufacturer's oil filter for replacement. Use of an oil filter not built to specification could result in severe damage to bearings, crankshaft, etc. as a result of unfiltered oil entering the lubrication system.

NOTE! Always dispose of oil filters according to Federal or local regulations. Used oil disposed of in nature or waterways contaminates our drinking water and kills wildlife.

Install new filters as follows:

- Coat the filter gasket with oil.
- Install the filter and turn it by hand until the gasket makes contact with the sealing surface.
- Then turn the filter an additional 3/4 turn.
