Shell Guide To Oxfordshire:

Oxfordshire, Not Including the City of Oxford John Piper, 1953 Oxfordshire Nikolaus Pevsner, Jennifer Sherwood, 1996-03-01 Oxford's unique collection of university and college buildings both old and new form a major part of this book. The city itself with its medieval walls and castle and ancient churches is also fully described. Among the county's distinguished houses are Vanbrugh's Blenheim and Kent's Rousham Park, each in magnificently landscaped grounds, while village churches range from notable Norman examples such as Iffley to G. E. Street's inventive Victorian creations such as St Simon St Jude at Shipton-under-Wychwood. Other attractive towns in this still strongly rural county vary from stone built Chipping Norton in the Cotswolds to brick built Henley on the Thames. **British Sources of Information** P. Jackson, 2003-09-02 This comprehensive and versatile reference source will be a most important tool for anyone wishing to seek out information on virtually any aspect of British affairs, life and culture. The resources of a detailed bibliography, directory and journals listing are combined in this single volume, forming a unique guide to a multitude of diverse topics. British politics, government, society, literature, thought, arts, economics, history and geography. Academic subjects as taught in British colleges and universities are covered with extensive reading lists of books and journals and sources of information for each discipline, making this an invaluable manual. **Shell Guide to Oxfordshire** Richard Lethbridge, 1988 50 Gems of Oxfordshire David Meara, 2022-11-15 Lavishly illustrated throughout, this book explores some of the best locations the county of Oxfordshire has to offer. **The historical handbook and guide to Oxford** James J. Moore, 1878 **The Historical Handbook and Guide to Oxford: Embracing a Succinct History of the University and City from the Year 912 ...** James J. Moore, 1878 **Shadow Sites** Kitty Hauser, 2007-03-29 At certain times of the day, at sunrise and sunset, the outlines of prehistoric fields, barrows and hill forts in the British landscape may be thrown into relief. Such shadow sites, best seen from above and captured by an airborne camera, are both examples of and metaphors for a particular way of seeing the landscape. At a time of rapid modernisation and urbanisation in mid twentieth century Britain, an archaeological vision of the British landscape reassured and enchanted a number of writers, artists, photographers and film makers. From John Piper, Eric Ravilious and Shell guide books to photographs of bomb damage, aerial archaeology and *The Wizard of Oz*, Kitty Hauser delves into evocative interpretations of the landscape and looks at the affinities between photography as a medium to capture traces of the past as well as their absence. A Grain of Faith Allan Hepburn, 2018-11-15 During and after the Second World War, there was a concerted thinking about religion in Britain. Not only were leading international thinkers of the day, theologians Ronald Niebuhr, Paul Tillich, Jacques Maritain, but leading writers contributed to discussions about religion. Graham Greene, Muriel Spark and Barbara Pym incorporated miracles, evil and church going into their novels, while Louis MacNeice, T. S. Eliot and C. S. Lewis gave radio broadcasts about the role of Christianity in contemporary society. Certainly the war revived interest in aspects of Christian life. Salvation and redemption were on many people's minds. The Ministry of

Information used images of bombed churches to stoke patriotic fervour and King George VI led a series of Days of National Prayer that coincided with crucial events in the Allied campaign After the war and throughout the 1950s approximately 1.4 million Britons converted to Roman Catholicism as a way of expressing their spiritual ambitions and solidarity with humanity on a world wide scale Religion provided one way for writers to answer the question what is man It also afforded ways to think about social obligation and ethical engagement Moreover the mid century turn to religion offered ways to articulate statehood not from the perspective of nationhood and politics but from the perspective of moral action and social improvement Instead of being a retreat into seclusion and solitude the mid century turn to religion is a call to responsibility

Rural Modernity, Everyday Life and Visual Culture Rosemary Shirley, 2016-03-03 Through the lens of the everyday this book explores the countryside as an inhabited and practised realm with lived rhythms and routines It relocates the topography of everyday life from its habitually urban focus out into the English countryside The rural is often portrayed as existing outside of modernity or as its passive victim Here the rural is recast as an active and complex site of modernity a shift which contributes alternative ways of thinking the rural and a new perspective on the everyday In each chapter pieces of visual culture including scrapbooks art works adverts photographs and films are presented as tools of analysis which articulate how aspects of the everyday might operate differently in non metropolitan places The book features new readings of the work of significant artists and photographers such as Jeremy Deller and Alan Kane Stephen Willats Anna Fox Andrew Cross Tony Ray Jones and Homer Sykes seen through this rural lens together with analysis of visually fascinating archival materials including early Shell Guides and rarely seen scrapbooks made by the Women's Institute Combining everyday life rural modernity and visual cultures this book is able to uncover new and different stories about the English countryside and contribute significantly to current thinking on everyday life rural geographies and visual cultures **England's Future**
