One day Andrew Shanahan took a guttie to text to a mate. But once he had taken the photo, he couldn't stop looking at it. He realised how unhappy he was about his body and resolved to change it. However, he soon learned that the dieting industry had turned its back on men. Men were expected to get fit, tone up and turn fat into a six pack in six weeks. There was nothing for men who simply wanted to lose their beer belly, play football again and feel more confident. So Andrew decided to do something about this. In Man v Fat, Andrew Shanahan will give you everything you need to know in order to lose weight, breaking it down into three essential components: Stage 1: Understand why you got fat; Stage 2: Learn how to lose weight; Stage 3: Create a winning structure. Contemporary Dieting Culture Hannah Bacon,2019-08-08 Hannah Bacon draws on qualitative research conducted inside

one UK secular commercial weight loss group to show how Christian religious forms and theological discourses inform contemporary weight loss narratives Bacon argues that notions of sin and salvation resurface in secular guise in ways that repeat well established theological meanings The slimming organization recycles the Christian terminology of sin spelt Syn and encourages members to frame weight loss in salvific terms These theological tropes lurk in the background helping to align food once more with guilt and moral weakness but they also mirror to an extent the way body policing techniques in Christianity have historically helped to cultivate self care The self breaking and self making aspects of women s Syn watching practices in the group continue certain features of historical Christianity serving in similar ways to conform women s bodies to patriarchal norms while providing opportunities for women s self development Taking into account these tensions Bacon asks what a specifically feminist theological response to weight loss might look like If ideas about sin and salvation service hegemonic discourses about fat while also empowering women to shape their own lives how might they be rethought to challenge fat phobia and the frenetic pursuit of thinness As well as naming as sin principles and practices which diminish women s appetites and bodies this book forwards a number of proposals about how salvation might be performed in our everyday eating habits and through the cultivation of fat pride It takes seriously the conviction of many women in the group that food and the body can be important sites of power wisdom and transformation but channels this insight into the construction of theologies that resist rather than reproduce thin privilege and size ist norms
