Alford,Suzanne Ferriss,2016-04-06 An Alternative History of Bicycles and Motorcycles Two Wheeled Transportation and Material Culture accounts for the nineteenth century creation and development of two wheeled vehicles both human powered and motorized Specifically the book focuses on the period from 1885 which saw the appearance simultaneously of the Safety bicycle and the Einspur the first motorcycle to 1920 while exploring implications for later bicycling and motorcycling We argue that invention of these vehicles rather than the product of gifted individuals should be seen as the consequence of a number of historical economic

cultural and political forces that intersect so unpredictably that the notion of a genius inventor is reductive The common evolutionary model of development from the bicycle to the motorcycle oversimplifies both the technology and its origins Stripping the vehicles of all their material and cultural associations such a model fails to advance our understanding of the devices their creators and their riders Taking a contemporary vehicle and tracing its lineage creates a false sense of evolutionary necessity in its creation and fails to account for the many possible developmental paths that were for whatever reason abandoned By contrast our book adopts a material culture approach a form of inquiry that stresses the connections between artifacts and social relations We consider not simply the bicycle and motorcycle as material objects but focus also on the complex socio political and economic convergences that produced the materials materials that in turn themselves shaped the vehicles appearance function and adoption by riders *Cincinnati Magazine* ,2006-06 Cincinnati Magazine taps into the DNA of the city exploring shopping dining living and culture and giving readers a ringside seat on the issues shaping the region **Scooters** Pixel Pete, Eric Dregni, Peter Martin,1995 Renewable Fuels Rajni Kant,Keshav Kant,2023-07-17 Renewable fuels in the present times have become important to curb emission of greenhouse gases which are causing damage to the environment and leading to climatic changes Ideally their utilization can be a zero carbon operation Planting suitable trees on all waste lands and agro forestry on a large scale can fulfil the needs of timber fuel fruits etc All kinds of lignocellulosic biomass can be converted by several methods to useful liquid fuels like alcohols biodiesel methane renewable diesel and renewable gasoline Hydrogen can be used as a renewable fuel because of its desirable characteristics and properties for its use as a green fuel **Fuel Cells** Noriko Hikosaka Behling,2012-12-31 Fuel Cells Current Technology Challenges and Future Research Needs is a one of a kind definitive reference source for technical students researchers government policymakers and business leaders Here in a single volume is a thorough review of government corporate and research institutions policies and programs related to fuel cell development and the effects of those programs on the success or failure of fuel cell initiatives The book describes specific internal corporate and academic R D activities levels of investment strategies for technology acquisition and reasons for success and failure This volume provides an overview of past and present initiatives to improve and commercialize fuel cell technologies as well as context and analysis to help potential investors assess current fuel cell commercialization activities and future prospects Crucially it also gives top executive policymakers and company presidents detailed policy recommendations on what should be done to successfully commercialize fuel cell technologies Provides a clear and unbiased picture of current fuel cell research programs Outlines future research needs Offers concrete policy recommendations *Cycle World Magazine* ,2004-01 American Motorcyclist ,2004-05 American Motorcyclist magazine the official journal of the American Motorcyclist Association tells the stories of the people who make motorcycling the sport that it is It s available monthly to AMA members Become a part of the largest most diverse and most enthusiastic group of riders in the country by visiting our website or calling 800 AMA JOIN
