Hand-book of Marine Insurance and Average Francis B. Dixon,1866 **Ultimate Scrum** Simon Kneafsey,2024-11-28 Ultimate Scrum a comprehensive guide created from 20 years of experience helping 250 000 people learn Scrum and Agile For an investment of less than 50 and 1 day you get the equivalent of 20 000 of professional training and 200 hours of classroom learning Whether you re a beginner or a pro this book will help you Learn at your own pace with concise overviews of essential topics Start or continue your Scrum journey The goal of Ultimate Scrum is simple to make learning Scrum Agile fast easy and low cost You ll find only essential content here with no filler This book provides short digestible coverage of a wide range of topics including popular frameworks methods approaches practices and tools It is

intended to be the almost complete works of Scrum It is only almost complete because new insights are constantly emerging What Readers Say Well written simply explained and with easy to follow examples that make the subject matter easy to understand I also enjoyed the shared experiences Ricardo This totally gets to the heart of what being an effective Scrum Master is all about There are also some excellent personal stories shared throughout which helps give further meaning and fully brings things to life Without hesitation all practicing and aspiring Scrum Masters should read this Paul As a product owner reading Ultimate Scrum gave me a great refresher of the fundamentals of the role in a way that was clear concise and easy to digest Philip I really like this book It is not just a description of the Scrum theory in general it comes with many tips from the daily work with Scrum and is easy to understand even for people that are completely new to Scrum Claudia I have read a number of books on Agile and the Scrum Framework What I particularly liked about the Ultimate Scrum Book was the depth and breadth It can also be picked in bite size chunks if you want to read about a certain section This book would be great for someone interested in getting a vast overview of Scrum and Agile who may not have been exposed to it before I can also see it being valuable to an experienced practitioner looking to get some enhanced knowledge on a topic they are less familiar with Highly recommended Nick Simple and straightforward clearing out the confusion you may find out there Fernando *The Problem of the Christian Master* Matthew Elia,2024-05-28 A bold rereading of Augustinian thought for a world still haunted by slavery Over the last two decades scholars have made a striking return to the resources of the Augustinian tradition to theorize citizenship virtue and the place of religion in public life However these scholars have not sufficiently attended to Augustine's embrace of the position of the Christian slaveholder To confront a racialized world the modern Augustinian tradition of political thought must reckon with its own entanglements with the afterlife of the white Christian master Drawing Augustine's politics and the resources of modern Black thought into extended dialogue Matthew Elia develops a critical analysis of the enduring problem of the Christian master even as he presses toward an alternative interpretation of key concepts of ethical life agency virtue temporality against and beyond the framework of mastery Amid democratic crises and racial injustice on multiple fronts the book breathes fresh life into conversations on religion and the public square by showing how ancient and contemporary sources at once clash and converge in surprising ways It imaginatively carves a path forward for the enduring humanities inquiry into the nature of our common life and the perennial problem of social and political domination **In the Footsteps of the Ancients** Ronald Witt,2021-10-01 This monograph demonstrates why humanism began in Italy in the mid thirteenth century It considers Petrarch a third generation humanist who christianized a secular movement The analysis traces the beginning of humanism in poetry and its gradual penetration of other Latin literary genres and through stylistic analyses of texts the extent to which imitation of the ancients produced changes in cognition and visual perception The volume traces the link between vernacular translations and the emergence of Florence as the leader of Latin humanism by 1400 and why limited to an elite in the fourteenth century humanism became a

major educational movement in the first decades of the fifteenth It revises our conception of the relationship of Italian humanism to French twelfth century humanism and of the character of early Italian humanism itself This publication has also been published in hardback please click here for details

Scientology James R. Lewis,2009-03-11 Scientology is arguably the most persistently controversial of all contemporary New Religious Movements James R Lewis has assembled an unusually comprehensive anthology incorporating a wide range of different approaches In this book a group of well known scholars of New Religious Movements offers an extensive and evenhanded overview and analysis of all of these aspects of Scientology including the controversies to which it continues to give rise
