

VARIABLES AND PATTERNS

INVESTIGATION 1 NOTES

variable – a quantity that changes or varies. (It is represented by a letter.)

coordinate graph – a graph that displays data, by showing how two variables relate.

relationship – how one variable compares to the other.

y-axis – the vertical axis (going up and down).

x-axis – the horizontal axis (going left to right).

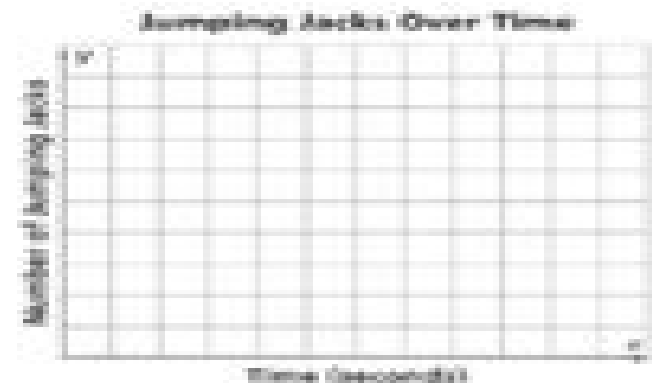

dependent variable – the variable that depends on the other, and you have control of this variable. The dependent variable goes on the y-axis.

independent variable – the variable that the other depends on, and you have NO control of this variable. The independent variable goes on the x-axis. (Any form of TIME goes on the x-axis.)

scale – the numbers you count by on the x and y-axis.

coordinate pair – the point on a graph where the x-value and y-value intersect. The first number is the x-coordinate, and the second number is the y-coordinate.

relationship – how two or more variables relate to each other. If one variable changes, the other variable must also change, and the change may be predictable.

Issues in Science Teaching John Sears, Pete Sorenson, 2005-08-18 Issues in Science Teaching covers a wide range of important issues which will interest teachers at all phases in the education system The issues discussed include the nature and purposes of science education in a multicultural society including the idea of science for all the role and purposes of investigational work in science education assessment curriculum progression and pupil attitudes to their science experience supporting basic skills development in literacy numeracy and ICT through science teaching supporting cross curricular work through science teaching taking account of individual differences including ability special needs learning style and the case for inclusion The articles are strongly based on current research and are intended to stimulate and broaden debate among the readers Written by practising science educators and teachers this book offers new and interesting ways of developing science education at all levels

Embracing the Track of Expression: An Emotional Symphony within **Variables And Patterns Investigation 1**

In a global eaten by monitors and the ceaseless chatter of fast interaction, the melodic splendor and emotional symphony produced by the prepared word often disappear into the background, eclipsed by the constant sound and disruptions that permeate our lives. Nevertheless, located within the pages of **Variables And Patterns Investigation 1** a charming fictional value overflowing with raw feelings, lies an immersive symphony waiting to be embraced. Crafted by a wonderful musician of language, this fascinating masterpiece conducts viewers on an emotional trip, skillfully unraveling the hidden songs and profound affect resonating within each cautiously crafted phrase. Within the depths with this touching evaluation, we can examine the book is central harmonies, analyze its enthralling writing design, and submit ourselves to the profound resonance that echoes in the depths of readers souls.
