Beyond the Crises: Zimbabwe's Prospects for Transformation Tendai Murisa,Tendai

Chikweche,2015-12-01 Over the past years few African countries have been the focus of discussions and analyses generating a vast array of literature as much as Zimbabwe The socioeconomic and political crises since the turn of the century have deeply transformed the country from the ideals of a vibrant freshly independent nation just two decades earlier These transformations have necessitated the call for the restructuring of Zimbabwean society polity and economy But this literature remains exclusively within the realm of academic thinking and theorising with no concerted effort to move beyond this by explicitly drawing out the policy implications *Beyond the Crises Zimbabwe's Prospects for Transformation* is a welcome addition to the academic and policy literature with a much broader and all embracing focus in terms of policy interventions By focusing on different aspects of social and economic justice Murisa and Chikweche go beyond initiating a broad discussion on these two key pillars of human development with a view to suggesting possible future directions of practical solutions and policy development for the attainment of inclusive social and economic justice for Zimbabweans **Human Development**

Report 1992 United Nations Development Programme,1992 Since its headline making debut the Human Development Report has become an essential resource for development specialists economists and political scientists around the world The 1992 Report not only updates the findings of the earlier volumes but also examines the international dimensions of human development showing how global economic growth and the expansion of the world economy have filtered down to poor economies and poor people in developing countries In addition it examines tpcps between human development and international markets for products capital and labor addresses issues of global governance and presents updated human development indicators for more than 160 countries **Polarization and Transformation in Zimbabwe** Erin

McCandless,2011-08-16 Social movements and civic organizations often face profound strategy dilemmas that can hamper their effectiveness and prevent them from contributing to transformative change and peace In Zimbabwe two particular dilemmas have fed into and fueled destructive processes of political polarization dividing society leadership and decision makers well beyond its borders As conceptualized in this study the first is whether to prioritize political or economic rights in efforts to bring about nation wide transformative change rights or redistribution The second is whether and how to work with government and or donors given their political economic and social agendas participation or resistance This book investigates these issues through two social movement organizations the National Constitutional Assembly and the Zimbabwe National War Veterans Association and the movements they led to achieve constitutional change and radical land redistribution Through in depth case study analysis and peace and conflict impact assessment spanning the years 1997 2010

lessons are drawn for activists practitioners policy makers and scholars interested in depolarizing concepts underpinning polarizing discourses transcending strategy dilemmas and understanding how social action can better contribute to transformative change and peace

Outcomes of post-2000 Fast Track Land Reform in Zimbabwe Lionel Cliffe, Jocelyn Alexander, Ben Cousins, Rudo Gaidzanwa, 2014-06-11 The struggle over land has been the central issue in Zimbabwe ever since white settlers began to carve out large farms over a century ago Their monopolisation of the better watered half of the land was the focus of the African war of liberation war and was partially modified following Independence in 1980 A dramatic further episode in this history was launched at the start of the last decade with the occupation of many farms by groups of African veterans of the liberation struggle and their supporters which was then institutionalised by legislation to take over most of the large commercial farms for sub division Sustained fieldwork over the intervening years by teams of scholars and experts and by individual researchers is now generating an array of evidence based findings of the outcomes how land was acquired and disposed of how it has been used how far new farmers have carved out new livelihoods and viable new communities the major political and economic problems they and other stakeholders such as former farm workers commercial farmers and the overall rural society now face This book will be an essential starting place for analysts policy makers historians and activists seeking to understand what has happened and to spotlight the key issues for the next decade This book was published as a special issue of the Journal of Peasant Studies

Preventing Violent Conflict in Africa Y. Mine, F. Stewart, S. Fukuda-Parr, T. Mkandawire, 2013-10-17 Horizontal inequalities are root causes of violent conflict in Africa Yet people take actions not because of statistical data on inequalities of which they might not be aware but because of injustices they perceive This volume analyses the results of original surveys with over 3 000 respondents in African cities and towns exposing clear discrepancies between objective inequalities and people s subjective perceptions The contributors examine experiences in country pairs and probe into the reasons why neighbouring countries sharing common historical traits sometimes took contrasting pathways of peace and violent conflict Combining quantitative analysis and qualitative anatomy of historical experiences of conflict and reconciliation in Rwanda Burundi Ghana Cote d'Ivoire South Africa Zimbabwe Uganda Tanzania Kenya and Nigeria the study brings forward a set of policy recommendations for development practitioners This work further addresses the issue of institutional choice and reveals how sustainable power sharing and decentralisation contribute to political stability in Africa

Twenty Years of Independence in Zimbabwe S. Darnolf, L. Laakso, 2016-01-13 This collection offers comprehensive insights into pivotal areas of concern regarding developments in Zimbabwe since its independence By disclosing the intra elite competition assessing the performance of Zimbabwe s economy and explaining how the country s natural resources have been managed we can better understand the ruling ZANU PF s increasing reliance on the so called war veterans and the land reform issue for its political survival

HIV/AIDS, Illness, and African Well-being Toyin Falola, Matthew M. Heaton, 2007 A comprehensive view of health issues

currently plaguing Africa with an emphasis on the HIV AIDS pandemic HIV AIDS Illness and African Well Being highlights the specific health problems facing Africa today most particularly the HIV AIDS pandemic Taking a multi disciplinary approach the book presents not only various healthcrises but also the larger historical and contemporary contexts within which they must be understood and managed Chapters offering analysis of specific illness case studies and the effects of globalization and underdevelopmenton health provide an overarching context in which HIV AIDS and other health related concerns can be understood The contributions on the HIV AIDS pandemic grapple with the complications of national and international policies thesociological effects of the pandemic and policy options for the future HIV AIDS Illness and African Well Being thus provides a comprehensive view of health issues currently plaguing the continent and the many differentways that scholars are interpreting the health outlook in Africa Contributors Obijiofor Aginam Yacouba Banhoro Richard Beilock Charity Chenga Mandi Chikombero Kaley Creswell Freek Cronj Frank N F Dadzie Gabriel B Fosu Stephen Obeng Manu Gyimah Kathryn H Jacobsen W Bediako Lamous Smith William N Mkanta Gerald M Mumma Kalala Ngalamulume Raphael Chijioke Njoku Cecilia S Obeng Iruka N Okeke Akpen Philip Baffour K Takyi Melissa K Van Dyke Sophie Wertheimer Ellen A S Whitney Toyin Falola is the Jacob and Frances Sanger Mossiker Chair in the Humanities and University Distinguished Teaching Professor at the University of Texas atAustin Matthew M Heaton is a PhD candidate at the University of Texas at Austin

Community-based Water Law and Water Resource Management Reform in Developing Countries Mark Giordano,John Butterworth,2007-01-01 The fifteen chapters of this book analyse the living community based water laws in Africa Latin America and Asia and critically examine the interface between community based water laws formal water laws and a variety of other key institutional ingredients of on going water resources management reform

Reclaiming the Land Sam Moyo,Paris Yeros,2013-07-04 Rural movements have recently emerged to become some of the most important social forces in opposition to neoliberalism From Brazil and Mexico to Zimbabwe and the Philippines rural movements of diverse political character but all sharing the same social basis of dispossessed peasants and unemployed workers have used land occupations and other tactics to confront the neoliberal state This volume brings together for the first time across three continents Africa Latin America and Asia an intellectually consistent set of original investigations into this new generation of rural social movements These country studies seek to identify their social composition strategies tactics and ideologies to assess their relations with other social actors including political parties urban social movements and international aid agencies and other institutions and to examine their most common tactic the land occupation its origins pace and patterns as well as the responses of governments and landowners At a more fundamental level this volume explores the ways in which two decades of neoliberal policy including new land tenure arrangements intended to hasten the commodification of land and new land uses linked to global markets have undermined the social reproduction of the rural labour force and created the conditions for popular resistance The volume demonstrates the longer term potential impact of these movements In economic

terms they raise the possibility of tackling immiseration by means of the redistribution of land and the reorganisation of production on a more efficient and socially responsible basis And in political terms breaking the power of landowners and transnational capital with interests in land could ultimately open the way to an alternative pattern of capital accumulation and development

Governing the Poor in Harare, Zimbabwe Amin Y. Kamete, 2002 This is a study of the terrain of urban governance using areas of Zimbabwe's biggest city Harare as case studies It presents and discusses sets of perceptions of poverty and the poor which influence policy development and decisionmaking among urban governors Kamete shows the effects of positive as well as negative perceptions of the poor He also problematizes more conventional understandings of poverty and includes into his own conceptual understanding dimensions of deficient access to participation and citizenship He shows that the relationship between power and powerlessness among the poor is much more complex than is sometimes assumed

AIDS and Rural Livelihoods Anke Niehof, Gabriel Rugalema, 2019-01-15 AIDS epidemics continue to threaten the livelihoods of millions of people in sub-Saharan Africa Three decades after the disease was first recognized the annual death toll from AIDS exceeds that from wars famine and floods combined Yet despite millions of dollars of aid and research there has previously been little detailed on the ground analysis of the multifaceted impacts on rural people Filling that gap this book brings together recent evidence of AIDS impacts on rural households livelihoods and agricultural practice in sub-Saharan Africa There is particular emphasis on the role of women in affected households and on the situation of children The book is unique in presenting micro level information collected by original empirical research in a range of African countries and showing how well grounded conclusions on trends impacts and local responses can be applied to the design of HIV responsive policies and programmes AIDS impacts are more diverse than we previously thought and local responses more varied sometimes innovative sometimes desperate The book represents a major contribution to our understanding of the impacts of AIDS in the epidemic's heartland and how these can be managed at different levels

World Development Report 2008 World Bank, 2007-10-15 The world's demand for food is expected to double within the next 50 years while the natural resources that sustain agriculture will become increasingly scarce degraded and vulnerable to the effects of climate change In many poor countries agriculture accounts for at least 40 percent of GDP and 80 percent of employment At the same time about 70 percent of the world's poor live in rural areas and most depend on agriculture for their livelihoods World Development Report 2008 seeks to assess where when and how agriculture can be an effective instrument for economic development especially development that favors the poor It examines several broad questions How has agriculture changed in developing countries in the past 20 years What are the important new challenges and opportunities for agriculture Which new sources of agricultural growth can be captured cost effectively in particular in poor countries with large agricultural sectors as in Africa How can agricultural growth be made more effective for poverty reduction How can governments facilitate the transition of large populations out of agriculture without simply transferring the burden of rural poverty to

urban areas How can the natural resource endowment for agriculture be protected How can agriculture's negative environmental effects be contained This year's report marks the 30th year the World Bank has been publishing the World Development Report

The African AIDS Epidemic John Iliffe, 2005-02-15 This history of the African AIDS epidemic is a much needed accessibly written historical account of the most serious epidemiological catastrophe of modern times The African AIDS Epidemic A History answers President Thabo Mbeki's provocative question as to why Africa has suffered this terrible epidemic While Mbeki attributed the causes to poverty and exploitation others have looked to distinctive sexual systems practiced in African cultures and communities John Iliffe stresses historical sequence He argues that Africa has had the worst epidemic because the disease was established in the general population before anyone knew the disease existed HIV evolved with extraordinary speed and complexity and because that evolution took place under the eyes of modern medical research scientists Iliffe has been able to write a history of the virus itself that is probably unique among accounts of human epidemic diseases In giving the African experience a historical shape Iliffe has written one of the most important books of our time The African experience of AIDS has taught the world much of what it knows about HIV AIDS and this fascinating book brings into focus many aspects of the epidemic in the longer context of massive demographic growth urbanization and social change in Africa during the latter half of the twentieth century The African AIDS Epidemic A History is a brilliant introduction to the many aspects of the epidemic and the distinctive character of the virus

Global Environment Outlook 2000 United Nations Environment Programme, 1999 This volume provides a comprehensive and detailed analysis of the conditions of the global environment highlighting key global concerns and making recommendations for policy action

Global Environment Outlook 2000 United Nations Environment Programme (Unep), 2013-11-05 The continued poverty of the majority of the planet's inhabitants and excessive consumption by the minority are the two major causes of environmental degradation The present course is unsustainable and postponing action is no longer an option Inspired political leadership and intense cooperation across all regions and sectors will be needed to put both existing and new policy instruments to work From the Synthesis Global Environment Outlook 2000 GEO 2000 is a comprehensive and authoritative review and analysis of environmental conditions around the world It is the flagship publication of the world's leading environmental organization the United Nations Environment Programme UNEP and is based on information provided by more than 30 regional and international collaborating centres The book presents a region by region analysis of the state of the world's environment highlighting key global concerns and making recommendations for policy action The regions covered include Africa Asia and the Pacific Europe and Central Asia Latin America and the Caribbean North America West Asia and the Polar Areas Chapter 1 Global Perspectives describes the main drivers of environmental change such as the economy population growth political organization and regionalization as well as potential impacts of recent global developments including the growth of the consumer culture trade and international debt Chapter 2 The State of the

Environment provides a global and region by region overview of the environment at the end of the second millennium. The chapter covers global issues such as ozone, climate change, El Niño, and nitrogen loading, and universal issues of land and food, forests, biodiversity, freshwater, marine and coastal areas, atmosphere, and urban areas. Chapter 3, Policy Responses, reviews the broad range of policy instruments and responses being used to address environmental issues, including multilateral environmental agreements, and analyses the difficulties of compliance, implementation, and assessment. Chapter 4, Future Perspectives, looks at environmental issues that will require priority attention in the 21st century and some alternative policy options that could be used in the regions. Chapter 5, Outlook and Recommendations, makes recommendations for future action based on the environmental legacy left by past and present policy and management systems. GEO 2000 will be the benchmark reference and guide to the state of the global environment. Written in clear, non-technical language and supported throughout by informative graphics and tables, it is essential reading for all those involved in environmental policy making, implementation, and assessment, and for researchers and students of regional and global environmental issues. Originally published in 1999.
