Munyaradzi Mawere,2024-11-29 The continent of Africa is richly endowed with diverse cultures a body of indigenous knowledge and technologies These bodies of knowledge and technologies that are indeed embodied in the diverse African cultures are as old as humankind From time immemorial they have been used to solve socio economic political health and environmental problems and to respond to the development needs of Africans Yet with the advent of colonialism and Western scientism these African cultures knowledges and technologies have been despised and relegated to the periphery to the detriment of the self reliant development of Africans It is out of this observation and realisation that this book was born The book is an exploration of the practical problems resulting from Africa s encounter with Euro colonialism a reflection of the nexus between indigenous knowledge culture and development and indeed a call for the revival and reinstitution of indigenous knowledge not as a challenge to Western science but a complementary form of knowledge necessary to steer and promote sustainable development in Africa and beyond This is a valuable book for policy makers institutional planners practitioners and students of social anthropology education political and social ecology and development African and heritage studies

Schieffer,Ms Liz Mamukwa,2014-11-28 Integral Green Zimbabwe An African Phoenix marks the debut of the Integral Green

Society and Economy series which links the philosophical integral age with the practical green movement The series blends elements of nature and community culture and spirituality science and technology politics and economics while this particular volume focuses specifically on Zimbabwe as well as Southern Africa drawing on the particular issues and capacities that this country and region represent Integral Green Zimbabwe Elizabeth Mamukwa, Ronnie Lessem, Alexander Schieffer, 2016-05-23 Integral Green Zimbabwe An African Phoenix Rising by Ronnie Lessem Alexander Schieffer and Liz Mamukwa is the first book in the Integral Green Society and Economy series a series which has three overarching aims The first aim is to link together two major movements of our time one philosophical the other practical The philosophical movement is towards what many today are calling an integral age while the practical is the green movement duly aligned with that of sustainable development The second is to blend together elements of nature and community culture and spirituality science and technology politics and economics thus serving to bring about an integral green vision albeit with a focus on business and economics As such the authors transcend the limitations to sustainable development and environmental economics which are overly ecological if not also technological in orientation and exclude social and cultural elements Thirdly this particular volume focuses specifically on Zimbabwe as well as Southern Africa drawing on the particular issues and capacities that this country and region represents The emphasis on Zimbabwe and Southern Africa transpired not only because two of the editors Lessem and Mamukwa are Zimbabwean in origin but because Zimbabwe is today like a phoenix rising from the ashes and has the opportunity to recreate itself anew **Broken Roots** Paul Chidyausiku, 1984 *Growing Up in Shona Society* Michael Gelfand, 1979 **My First Book of Shona and Ndebele Words** Yeye C.
