*Institutional Arrangements for Conservation, Development and Tourism in Eastern and Southern Africa* René van der Duim,Machiel Lamers,Jakomijn van Wijk,2014-11-16  
This book presents an overview of different institutional arrangements for tourism biodiversity conservation and rural poverty reduction in eastern and southern Africa These approaches range from conservancies in Namibia community based organizations in Botswana conservation enterprises in Kenya private game reserves in South Africa to sport hunting in Uganda and transfrontier conservation areas The book presents a comparative analysis of these arrangements and highlights that most arrangements emerged in the 1990s through either a decentralized or centralized change trajectory that was sponsored by donors They aim to address some of the challenges of the fortress types of conservation by combining

principles of community based natural resource management with a neoliberal approach to conservation evident in the use of tourism as the main mechanism for accruing benefits from wildlife The book illustrates the empirical relevance of these novel arrangements by presenting their growth in numbers and discuss how these arrangements differ in their form With respect to the conservation and development impacts of these arrangements we show that they have secured large amounts of land for conservation but also generated governance challenges and disputes on tourism benefit sharing affecting the stability of these arrangements to generate socioeconomic and conservation benefits

**Managing and Adapting to Global Change in Tourism Places** Alan A. Lew, 2017-10-02  
Today more than ever communities need to develop resilience strategies to adapt to the varied and often unpredictable forces of global change The focus of this collection of articles from Tourism Geographies is on global change in tourism places Global change incorporates social and economic globalization which is arguably the most important process to have shaped the development of modern tourism since the nineteenth century and climate change which is likely to be the most significant factor influencing human behavior and livelihood in the coming decades The organization of these articles reflects a traditional geography approach which starts with an emphasis the physical geography foundations of the human condition especially through the issue of climate change This is then broadened by a series of insightful comparative studies of how tourism communities react adapt and relate to their changing natural and social conditions This collection of papers

addresses major issues and adaptive paths for tourism destinations as they face the challenges of our contemporary world

This book was published as a special issue of *Tourism Geographies* **The Routledge Handbook of Tourism**

**Geographies** Julie Wilson, Dieter K. Müller, 2024-10-24 The Routledge Handbook of Tourism Geographies 2nd Edition offers a comprehensive re-evaluation of the recent developments, conceptual, theoretical, and empirical debates, and critical issues in this field of study. Reflecting on and building from its original aim of rethinking geographical approaches to tourism, the volume explores contemporary tourism contexts and concepts as marked by the present era of polycrises, setting out renewed and reoriented perspectives on tourism geographies into the mid-2020s. Across its diverse range of contributions, the Handbook navigates the complexities of tourism as a shifting construct, situating tourism geographies within the socio-spatial, economic, and environmental implications of tourism, leisure, and mobilities in the new contexts of global change, ecological transition, and digital transformation. The volume aims to provide a nuanced and detailed analysis of established and emerging discourses and debates within tourism geographies, underscoring the field's inherent criticality and ideal positioning for understanding and catalysing complex global and local scenarios in contemporary tourism, leisure, and mobilities. Written by leading scholars in the tourism geographies field, this text is an invaluable resource for students, researchers, and scholars working in the areas of tourism geography and related disciplines, encouraging dialogue across areas of study.
