new book Michael Stubbs shows that linguistic concepts can be extended to analyse spontaneous and informal talk in the home classroom or factory and indeed written narrative Using copious examples drawn from recorded conversations field work observations experimental data and written texts he explores such questions as how far discourse structure is comparable to sentence structure whether it is possible to talk of well formed discourse as one does of grammatical sentences and whether the relation between question and answer in conversation is syntactic semantic or pragmatic He also demonstrates some of the limitations of contemporary linguistics and speech act theory which neglect key aspects of native speaker fluency and communicative competence Although written from a predominantly linguistic perspective the book is informed by insights from sociology and anthropology Theoretical debate is accompanied by discussion of real life implications particularly for the teacher A Final Chapter offers clear and practical guidelines on methods of data collection and analysis for the student and researcher and the book includes a full bibliography and suggestions for further reading
