beekeeping method that is providing a radical return to healthy bee hives in the U S and around the world today is explained in detail in A Lively Hive Author Alex Tuchman the director of Spikenard Farm Honeybee Sanctuary in Floyd Virginia walks the reader through both the philosophy and practical applications that have shown remarkable success rates In the past five years the catastrophic loss of 45% of U S honeybee colonies has been well documented By contrast in that same time period Spikenard Farm Honeybee Sanctuary has shown an astonishing low loss of only 12% Tuchman shares the significant difference between beekeeping methods that exploit the honeybee for human agribusiness and alternative methods to beekeeping that are in line with the instincts and wisdom of the honeybees themselves The amazing results as it turns out are found at heart in the relationship and communication between the honeybee and the human that when we listen to what the bees are telling us only then are we guided to best provide for the bees needs in the physical world **Natural Beekeeping with the Warre Hive** David Heaf,2020-09-23
