**Power of Logic** Frances Howard-Snyder, 2008 **Faith, Reason, and Beyond Reason** Mark J. Boone, 2024-07-16 The relationship between faith and reason is multifaceted Faith transcends reason in that it is more than reason alone can contain or fully guarantee yet it is neither unreasonable nor something to which reason is irrelevant and reason says some pretty fine things about it This volume updates nine previously published articles on faith and reason by a Christian philosopher who has been studying these matters for two decades alongside one new essay and a philosophical dialogue These articles explain and integrate key ideas on faith and reason including Alvin Plantinga's account of how Christian belief can be knowledge even without evidence defenses of faith from Augustine and William James accounts of empirical evidence for faith from different world religions the distinction between faith and sight in the New Testament the structure of the evidence for the authority of the Bible the idea that faith transcends reason because some articles of faith are beyond human comprehension even if we have evidence that they are true and the nature of faith as a total commitment beyond what the evidence alone can guarantee Christian Morality Geoffrey W. Sutton, Brandon Schmidly, 2016-08-08 Should society care about Christian morality Are Christians out of touch with complex moral decision making *Christian Morality An Interdisciplinary Framework for Thinking about Contemporary Moral Issues* provides readers with a framework for identifying and applying Christian moral principles to divisive issues First readers learn of the theological and philosophical foundations of Christian ethics Two additional chapters explain how personal and social factors influence our capacity to think critically and Christianly about morality Second readers will learn about forming Christian moral judgments by seeing how different thinkers address six contemporary moral

issues abortion same sex relationships equal treatment of men and women in the workplace sex education and racial bias in incarceration polices      **Philosophical Perceptions on Logic and Order** Horne, Jeremy, 2017-05-19 Strong reasoning skills are an important aspect to cultivate in life as they directly impact decision making on a daily basis By examining the different ways the world views logic and order new methods and techniques can be employed to help expand on this skill further in the future Philosophical Perceptions on Logic and Order is a pivotal scholarly resource that discusses the evolution of logical reasoning and future applications for these types of processes Highlighting relevant topics including logic patterns deductive logic and inductive logic this publication is an ideal reference source for academicians students and researchers that would like to expand their understanding of how society currently employs the use of logical reasoning techniques

*Recruiting the Ancients for the Creation Debate* Andrew J. Brown, 2023-10-05 A careful and unbiased analysis of how thinkers from church history interpreted the creation narrative in Genesis How literally are we meant to take the creation week of Genesis 1 In this polarizing debate contemporary interpreters invoke great theologians from history to support their own side whether that be a young Earth theistic evolution or any other view The problem lies in trying to force ancient authors into contemporary boxes as Andrew J Brown shows in this thought provoking volume Covering Philo Basil Augustine Thomas Aquinas Martin Luther John Calvin John Wesley and more Brown carefully interprets great thinkers readings of Genesis 1 in their intellectual contexts He then assesses how these authors have been subject to cherry picking and misappropriation in the trenches of the modern creation debate By studying the intellectual history of the church in this way to revisit rather than recruit the ancients we can enrich our own biblical interpretation Irenic and magisterial Brown's guide will interest both scholars of historical theology and anyone invested in the creation debate      *Individuals as Producers of Their Own Development* Richard M. Lerner, 2021-03-30 In the World Library of Psychologists series international experts present career long collections of what they judge to be their most interesting publications extracts from books key articles research findings and practical and theoretical contributions Professor Richard M Lerner has been prominent in the application of developmental science across the life span for half a century investigating dynamic relational development systems and their potential impact on positive youth development PYD and social justice In this collection Professor Lerner presents the development of his theory of and research about relations between life span human development and contextual or ecological change exploring the mutually influential relations between humans and their peer family school and community contexts Including a specially written introduction in which Professor Lerner reflects on the importance of mentorship and contextualises both the field and the evolution of his wide ranging career this collection will be a valuable resource for students and researchers of developmental psychology      **The Power of Logic 6e** Frances Howard-Snyder, HOWARD-SNYDER, Ryan Wasserman, 2019-07-25 This edition of The Power of Logic offers an introduction to informal logic traditional categorical logic and modern symbolic logic The authors direct and accessible writing style along

Contemporary Debates in Philosophy of Religion Michael L. Peterson, Raymond J. VanArragon, 2020-01-15 Lively debates on controversial and compelling questions in the philosophy of religion: an updated edition of the bestselling title. Building upon the reputation of the first edition, the extensively revised second edition of *Contemporary Debates in Philosophy of Religion* features fifteen essays which present arguments on some of the most central and controversial topics in philosophy of religion from the discipline's most influential thinkers. Considering questions of both emerging and perennial interest from atheistic, theistic, and agnostic viewpoints, the book adopts the series structure which pairs essays espousing opposing perspectives on a particular question or theme in an engaging pro and con format. Following accessible introductions to each debate, the volume's new and newly revised contributions set the stage for thoughtful and lively discourse between philosophers in philosophy of religion and analytic theology. Debates range from vigorous disagreements between theists and their critics to arguments between theists of different philosophical and theological persuasions, highlighting points of contrast for readers while showcasing the field's leading minds in dialogue. The head-to-head chapters offer forceful advocacy for some of the most compelling ideas, beliefs, and objections in the philosophy of religion, opening the conversation up to students to weigh the arguments and engage in comparative analysis of the concepts for themselves. Written to appeal to the non-specialist as well as the professional philosopher, *Contemporary Debates in Philosophy of Religion* is ideal as both a provocative primary text for coursework in analytical theology and philosophy of religion and as a broad survey of the field for scholars and general readers with an interest in the questions which underpin contemporary philosophy of religion and theology.
