(Yellowreef) Thomas Bond, Chris Hughes, 2013-11-05 **The Red Queen among Organizations** William P.

Barnett, 2016-08-02 There s a scene in Lewis Carroll s Through the Looking Glass in which the Red Queen having just led a chase with Alice in which neither seems to have moved from the spot where they began explains to the perplexed girl It takes all the running you can do to keep in the same place Evolutionary biologists have used this scene to illustrate the evolutionary arms race among competing species William Barnett argues that a similar dynamic is at work when organizations compete shaping how firms and industries evolve over time Barnett examines the effects and unforeseen perils of competing and winning He takes a fascinating in depth look at two of the most competitive industries computer manufacturing and commercial banking and derives some startling conclusions Organizations that survive competition become stronger competitors but only in the market contexts in which they succeed Barnett shows how managers may think their experience will help them thrive in new markets and conditions when in fact the opposite is likely to be the case He

finds that an organization's competitiveness at any given moment hinges on the organization's historical experience. Through Red Queen competition, weaker competitors fail or they learn and adapt. This in turn heightens the intensity of competition and further strengthens survivors in an ever-evolving dynamic. Written by a leading organizational theorist, *The Red Queen* among Organizations challenges the prevailing wisdom about competition, revealing it to be a force that can make and break even the most successful organization.

[The Mayan Red Queen](#) Leonide Martin, 2015-08-07. The ancient Maya city of Lakam Ha has a new young ruler, Kinich Janaab Pakal. His mother and prior ruler, Sak K'uk, has selected his wife, the next queen, Lalak. Lalak is a shy and homely young woman from a nearby city who relates better to animals than people. She is chosen as Pakal's wife because of her pristine lineage to B'aakal dynasty founders but also because she is no beauty. Arriving at Lakam Ha, she is overwhelmed by its sophisticated, complex society and expectations of the royal court. Her mother-in-law, Sak K'uk, is critical and hostile, resenting any intrusion between herself and her son. She chose Lalak to avoid being displaced in Pakal's affections and does everything she can to keep it this way. The official name she confers on Lalak exposes her view of the girl as a breeder of future rulers, Tz'aabk'u Ahau, the Accumulator of Lords, who sets the royal succession. Lalak struggles to learn her new role and prove her worth, facing challenges in her relationship with Pakal for he is enamored of a beautiful woman banished from Lakam Ha by his mother. Pakal's esthetic tastes and love of beauty affect his view of his homely wife. Lalak, however, is fated to play a pivotal role in Pakal's mission to restore the spiritual portal to the Triad Gods that was destroyed in a devastating attack by arch-enemy Kan. Through learning sexual alchemy, Lalak brings the immense creative force of sacred union to rebuild the portal, but first Pakal must come to view his wife in a new light. In modern times, ten years after the discovery of the Red Queen's tomb, archaeologist Francesca is studying new research about this mysterious royal woman in Merida, Mexico. She teams up with British linguist Charlie to decipher an ancient manuscript left by her deceased grandmother. It provides clues about her grandmother's secrets that propel them into exploring her family history in a remote Maya village.
