House Blues Suzanne Ruthven, 2014-03-28 A view of vampire culture through the eyes of Lord Ruthven the first vampire in the literary world from John Polidori's *The Vampyre* Written as fiction Lord Ruthven rarely appears in vampiric anthologies and has never been filmed neither has he ever been vanquished *Cryptomimesis* Jodey Castricano, 2001-11-07 She develops the theory of cryptomimesis a term devised to accommodate the convergence of philosophy psychoanalysis and certain Gothic stylistic formal and thematic patterns and motifs in Derrida's work that give rise to questions regarding writing reading and interpretation Using Edgar Allan Poe's *Madeline* and *Roderick Usher* Bram Stoker's *Dracula* and Stephen King's *Louis Creed* she illuminates Derrida's concerns with inheritance revenance and haunting and reflects on deconstruction as ghost writing Castricano demonstrates that Derrida's *Specters of Marx* owes much to the Gothic insistence on the power of haunting and explores how deconstruction can be thought of as the ghost or deferred promise of Marxism

She traces the movement of the phantom throughout Derrida's other texts arguing that such writing provides us with an uneasy model of subjectivity because it suggests that to be is to be haunted. Castricano claims that cryptomimesis is the model method and theory behind Derrida's insistence that to learn to live we must learn how to talk with ghosts.

Vampire God Mary Y. Hallab, 2010-03-30 It seems we're awash in vampires these days in everything from movies television shows and novels to role playing games rock bands and breakfast cereals. But what accounts for their enduring popular appeal? In *Vampire God* Mary Y. Hallab examines the mythic figure of the vampire from its origins in early Greek and Slavic folklore its transformation by Romantics like Byron, Le Fanu and Stoker and its diverse representations in present day popular culture. The allure of the vampire Hallab argues lies in its persistent undeadness its refusal to accept its mortal destiny of death and decay. Vampires appeal to our fear of dying and our hope for immortality and as a focus for our doubts and speculations vampire literature offers answers to many of our most urgent questions about the meaning of death the nature of the human soul and its possible survival after bodily dissolution. Clearly written with wry humor *Vampire God* is a thoroughly researched ambitious study that draws on cultural anthropological and religious perspectives to explore the significance and function of the vampire in relation to the scientific social psychological and religious beliefs of its time and place.

Balancing the Scales Marie A. Conn, Therese Benedict McGuire, 2003 *Balancing the Scales* a book of essays by faculty members of Chestnut Hill College in Philadelphia is an exploration of the manipulation and transformation of symbolic concepts of women. A multidisciplinary collection representing Art History English Spanish Language and Literature Psychology and Theology this book hopes to raise awareness of the historical perception of women before and after the so called patriarchal revolution. In the eighth century BCE the Greek poet Hesiod changed the character of Pandora a manifestation of the Great Earth Mother into Pandora the bringer of evil. This fundamental change in the nature of the female archetype influenced the biblical writers and their depiction of Eve. In the medieval period artistic renderings of the Whore of Babylon and the Woman Clothed with the Sun resulted in cultic images of women as either whore Eve or pure virgin Mary. The apparitions and miraculous images of the Black Madonna at Montserrat and Guadalupe show the persistence of the divine feminine in popular culture even as institutional religion denies her existence. The story of Cleopatra breaks open the question of why strong women are seen as frightening. The essays conclude with psychological study of the imbalance induced by millennia of patriarchal domination resulting in the loss of the sacred feminine.
