

A scenic landscape photograph featuring a narrow, light-colored dirt road that winds through a dense forest. The trees are covered in vibrant red autumn foliage, creating a rich, textured background. In the distance, a dark, silhouetted mountain peak rises against a pale, overcast sky. The overall mood is serene and contemplative.

The Study of Politics M. Duverger, 2012-12-06 If the study of politics is to be rewarding both intellectually and practically it must by definition concern itself with the great issues which arise in the real world and with the fundamental arguments which occur about their nature and the possible solutions to them Abstract political philosophy which is not informed by the experience of practice will become sterile A study of constitutions and the machinery of government can become dry as dust and hence boring unless the underlying principles are analysed and grasped But theories of political change divorced from an understanding of constitutions and institutions will degenerate into mere phrase mongering Attempts to apply the techniques of the natural sciences to politics will lead to model building for its own sake and thence to arid and barren intellectualism unless it is understood that it is impossible to quantify the intangible Indeed any one-sided approach to politics and consequent failure to grasp the essential wholeness of the subject is bound to end in disaster The study of politics is a study of changing human relationships in dynamic societies Thus it involves since the present and hence the future are shaped in part by the past an appreciation of history *Congressional Record* United States. Becoming the Thinker Charles Munn,1999-11-19 The title Becoming The Thinker is meant to be an ideal merging of ones physical brain with what some consider to be intuition or instinct or inborn health and what others may even consider to be god Yet Becoming The Thinker does not promise that humankind at least in this mutation will ever fully merge with intuition instinct god and see the entire whole truth of the universe How far You decide to take this process can only be Your choice No one can look into your thoughts and know what limitations intellectual or otherwise you may have placed upon yourself or what is hardwired into Your brain Please forgive me for the following wolf metaphor I use it only in order to simplify what seems to be occurring in our current culture smile From the little I know about Wolves they dont seem to be manipulative or deceitful I suspect you will agree that we live in a racist or ethno centristic world Yet the extremely small hidden ruling class does not seem to be concerned with mundane thoughts such as skin color Rather the ruling class seems

to be more like wolves in the sense that a few are alpha types but most others are not yet all who choose to actually think rather than react from an imposed training can be thought of as people wolves To belong to this ruling class wolf pack that is fast becoming the corporate world and the corporate media as opposed to merely corporate America etc it only seems to matter that you develop a cutting edge personal honesty which does not necessarily extend to your fellow wolves and certainly not to the would be wolves who are in reality little more than people sheep who remain in the trance of life In this sense the people wolves are always the hidden ruling class who cause the media to aid in the manufacture of consent and impose that manufactured truth upon the people sheep who in turn then believe it is themselves who run the world Those people sheep still in the trance of life are not forced into being victims they have merely been tricked into letting others do their thinking People sheep can also choose NOT to be mired in a myriad of unexamined beliefs systems of thought which disconnects them from the clearer light They can choose to come out into the real light find their personal honesty and begin to wisk away the centuries of cultural fog which keeps them locked in the trance of life That is sheep like humans can choose to become wolf like However the irony is that most people sheep are so deluded that they believe themselves to be Wolves Only you can examine your ingrained systems of thought Ego and decide where you fit into the scheme of things BECOMING THE THINKER is about a rediscovered ancient paradigm that is only now gaining momentum The book shows how to reconnect with the unlimited power of your inner wisdom and mold the future to your own desires Your awakened ability to control your own future amplifys your natural intuitive gifts Inborn intuition provides us with the fearless talent to recognize and analyze accurate information That ability is intuitive free will and it is the real gift of the universe In 1991 after discovering an emerging and profound paradigm I wrote a series of essays designed to remind me how to stay connected to our natural inner power Wanting to add momentum to the paradigm I floated some of the essays on the net I later put it all together in this self help book Becoming The Thinker In order to reach even more people I recently finished the novel Paradise Now If youre looking for a way to truly enhance your being and your future life youve got the right book Ive spent much of my time being angry However my first seven years were serene because I was firmly in touch with my inner power The connection was broken when I was forced to move in with my mother and the man who shared her world During those yea
