International Handbook on Ecotourism Roy Ballantyne, Jan Packer, 2013-01-01. Roy and Jan have assembled a timely snapshot of our current understanding of ecotourism, both as a concept worthy of scientific inquiry and as an increasingly significant segment of global commerce and industry. A terrific piece of work. Sam Ham, University of Idaho, US. In the 30 or so years since it became established in the tourism literature and in tourism practice, ecotourism has attracted as many proponents as opponents. This Handbook now brings together some of the leading scholars worldwide in this field to explore the current position of this form of tourism. In doing so, it offers serious critiques, it explores meanings and paradoxes, it offers best practices and it looks to the future. It is the Handbook for one of tourism's fastest growing and controversial sectors. David Airey, University of Surrey, UK. This is a most welcome and needed book. With a very strong editorial team and contributing authors, the Handbook covers all the key issues of ecotourism. It cuts through the confusion surrounding the much misunderstood concept of ecotourism, clearly dealing with definitions, concepts and research issues. The Handbook is particularly welcome for its focus on the visitor experience, a strength of the editors, and for clearly linking the theory of ecotourism with practice in the field. Christopher Cooper, Oxford Brookes University, UK. This Handbook brings together contributions from over forty international experts in the field of ecotourism. It provides a critical review and discussion of current issues and concepts; it challenges readers to consider the boundaries of what ecotourism is and could be. The Handbook provides practical information regarding the business of ecotourism, insights into ecotourist behaviour and visitor experiences, and reflections on the practice of ecotourism in a range of different contexts. The Handbook is designed to be a valuable reference book for tourism scholars and researchers.

**Research** Kelly Bricker, Holly Donohoe, 2015-12-04 It often seems that there is more confusion than consensus regarding tourism theory Does tourism have theories it can truly own or does it just borrow from other academic disciplines It can be difficult to understand the theories and conceptual frameworks available and how to apply these ideas to a research endeavour This book reviews theoretical perspectives on tourism from planning and management through marketing and host communities to the tourism consumers themselves Covering issues such as tour guiding rural tourism development and destination image it provides a complete guide to the industry Including pedagogical features throughout this book is an accessible approach to a controversial subject
