Planning and Managing the Experience Economy in Tourism Augusto Costa, Rui Brandão, Filipa Breda, Zelia Costa, Carlos, 2021-12-03. Tourism is facing a new paradigm that has been brought on by the introduction of experiences in the development, management and promotion of tourism. Associating experiences to tourism destination and products allows tourists to relate to their vacations differently and helps to fuel a destination's competitiveness and compliance with new needs and motivations that are being driven by the tourists. When properly designed, managed and developed, tourism experiences can contribute to the destination's overall sustainability by maximizing tourism's positive impacts and fostering their spillover to local communities. *Planning and Managing the Experience Economy in Tourism* is an essential reference book that seeks to advance research on tourism experience as well as investigate how tourism experiences can create and increase tourism competitiveness. The book explores how the experience concept has evolved in the last decade alongside the needs and motivations of consumers and how it can be conceptualized, designed, managed and implemented both at the tourism firm and destination levels. Delving further into concepts like creative tourism, destination attributes and smart experiences, this book serves as a dynamic resource for travel agencies, tourism managers, tourism professionals, marketers, destination managers, government officials, policymakers, academicians, students, tourism officials, planners and researchers.

Tourism in Northern Ireland and its economic impact and benefits Great Britain: Parliament: House of Commons: Northern Ireland Affairs Committee, 2007-03-15. The Committee's report examines the nature of tourism in Northern Ireland, its impact on and importance for the overall economy and the effectiveness of measures taken by Government and other relevant agencies to develop, promote and support the marketing of Northern Ireland as a tourist destination. The Committee's recommendations are addressed to the Northern Ireland Office, which took back responsibility for tourism in Northern Ireland when the power-sharing executive was suspended in October 2002, but if a power-sharing executive is re-established, then responsibility for tourism will revert to the restored Executive and accordingly responsibility for scrutiny of this policy area would revert to the Committee of a restored Assembly. The Committee's report makes 27 recommendations to help Northern Ireland maximise its tourist potential and concludes that if government recognises the enormous economic impact of tourism and if private enterprise in co-operation with statutory bodies can develop this recognition into a coherent strategy, there is no reason why the success of tourism in the Republic of Ireland should not be replicated in Northern Ireland to the advantage of the whole island of Ireland and with Northern Ireland itself enjoying an equivalent status to Scotland and Wales as a UK tourist destination.
