Dyer draws on eight years of study of the automotive industry including a wealth of data from interviews with over 200 executives and surveys of over 500 suppliers as he offers detailed case studies of Toyota and Chrysler to show managers how to create collaborative advantage with their supplier networks Dyer demonstrates how to build trust in the extended enterprise how to exploit and manage knowledge describing how Toyota manages knowledge across organizational boundaries and how to create advantages through dedicated asset investments In turn these processes generate stunning performance advantages and an identity for the extended enterprise To be successful in future years executives will have to convert their corporations into fully integrated extended enterprises In Collaborative Advantage Jeff Dyer shows them how
