

It is connected while charging. Reconnect the charging cable when disconnected.

Avoid exposure to rain or wind.

Charge the battery any time regardless of the amount of charge remaining. Charge the battery using the charging cable and charge the battery until it is fully charged.

When the battery is fully charged, the battery's usable time will be shorter.

Use this product installed in a cool indoor location. The optimal temperature is 10 to 20°C.

At high or low temperatures, the performance of the battery is reduced. At high temperatures, the battery will deteriorate.

After a long storage period, make sure to charge it first.

When the battery is completely empty, charge it as soon as possible. If you leave it for a long time, it will cause the battery to deteriorate.

Over time, the battery will gradually lose its capacity to hold a charge.

The battery can be used and its traveling distance becomes shorter than the time of purchase.

Due to natural wear and deterioration from normal use, the battery's capacity will gradually decrease.

We highly recommend SHIMANO lubricants and greases.
