Standing In The Shadows:

Their Man in the White House Tom Ardies,1971 *Standing in the Shadows* Peter Robinson,2023-04-11 One of the finest police procedural writers around *Standing in the Shadows* is as narratively rich and surprising as Robinson's best work. Knowing it's his last makes the reading bittersweet. New York Times Book Review The 28th twisting installment in the DCI Alan Banks mystery series that Stephen King calls the best now on the market. In November 1980 Nick Hartley returns home from a university lecture to find his house crawling with police. His ex-girlfriend Alice Poole has been found murdered and her new boyfriend Mark Woodcroft is missing. Nick is the prime suspect. The case quickly goes cold but Nick cannot let it go. He embarks on a career in investigative journalism determined to find Alice's murderer but his obsession leads him down a dangerous path. Decades later in November 2019 an archaeologist unearths a skeleton that turns out to be far more contemporary than the Roman remains she is seeking. Detective Superintendent Alan Banks and his team are called in to investigate but there is little to be gleaned from the remains themselves. Left with few clues Banks and his team must rely on their wits to hunt down a killer. As the two cases unfurl the investigations twist and turn to an explosive conclusion.

Standing in the Shadows Shannon McKenna,2022-06-07 In *Behind Closed Doors* you were introduced to Seth's partners the sexy and dangerous McCloud brothers and now it's Connor McCloud's turn to face the fire. She haunts his dreams. Ex-FBI agent Connor McCloud barely survived being set up to die by a trusted friend and fellow agent Ed Riggs. That disaster cost him not only his partner Jesse's life but his hopes of winning the love of Erin, Ed's beautiful studious daughter. She would never be with the man who had put her father in prison. Forever out of reach Erin is hanging on by her fingernails. Her father is disgraced and imprisoned, her mother and sister are falling apart, the scandal has cost her a job she loved as a museum curator and the man she's secretly craved for years is responsible for all of it. When an opportunity comes up to appraise a trove of priceless Celtic artifacts for a rich recluse she leaps at the chance. Maybe things are starting to look up. Then Connor discovers that his old nemesis Kurt Novak is back hungry for payback and that Erin is his weapon of choice. He has no choice but to leap into action whether Erin trusts him or not, whether she hates him or not. Nothing matters but protecting the woman he loves from a vengeful sadistic killer. This title is a re-release originally published by Brava.

Hanci,2002-08-07 Modern science has placed before us a vast and ancient universe, one said to contain a billion trillion stars clustered in a hundred billion galaxies and to be thirteen billion years old. Our earthly home we are told is a tiny chunk of

matter randomly formed revolving around a mediocre star in the outlying reaches of an unspectacular galaxy Life on earth developed by chance We are the end result of a series of accidents This scientific Story of Creation though finely detailed isn't based on cold hard fact Scientists proclaim without a shred of proof that the laws of nature remain constant through both time and space Upon this rock they build their world This scientific premise cannot be proved It must be taken on faith This book dismisses the scientific premise and explains the universe based on an equally unprovable premise That we are created in the image of our creator and create the material world in our image It then sets out to prove that the universe is not a vast ancient place ruled by chance but rather exists as a reflection or shadow or mirror image of us
